Ann, this is the first time, as far as I know, that we'll be closing a docket based on an order, but without the closing language in the "Ordered"... section. We've always gone by what that section states when it comes to close a docket per an order. That is the correct way of doing an order, and it also saves us time and make it a lot easier for us when we close a docket. For instance, this order has 19 pages, and it would take time for us to read it and make a determination whether to close the docket or not.

Please let us know whether this is going to be a change of our procedures regarding the requirement for the closing language in the "Ordered.." section, or this is just one time exception.

Hi Matilda,

I spoke to Ann about this. Under the heading Closing Docket, we discuss that the docket is to be closed. I then treated that section the same as every other in the language that approved the petition as set forth in the body of the order.

Ann agreed, absent some requirement in an APM, that it did not require an additional reference to closing the docket in the ordering paragraphs. I think it is OK as drafted.

On pg 18, do you need to place an Ordering paragraph about docket can be closed, after that 2nd Ordering paragraph. Thought that the Vote Sheet was saying it was to be closed. Did I read that wrong?

Please advise.
