Clerk of the PSC

Formal request to open new petition. This is a separate issue not to be combined with any other petition.

This is a formal request to open a new petition against Tampa Electric for being in violation of commission rule 25-6.100 in regards to billing.

Specifically the requirement is to have on the bill locations where payments can be made with no fees for making the payment transaction.

Locations are defined in all dictionaries as physical places and thus do not include post office boxes or internet sites.

Tampa Electric does not provide any of this required information on their bills.

Thank you for opening the petition and notifying me of the number.

Sincerely yours,

Curtis Brown
