Subject: Docket 130249

Hi Lee Eng,

Per your request, here is why DEF filed the standard offer contract in the above-referenced docket. Please let me know if you have any questions or need anything further – thanks!

Rule 25-17.250(2)(a) and (b) provides: “...each standard offer contract shall remain open until: 1. A request for proposals (RFP) pursuant to Rule 25-22.082, F.A.C. is issued for the utility’s planned generating unit; ... Before a standard contract offering is closed, the utility shall file a petition for approval of a new standard offer contract based on the next unit of the same generating technology, if any, in its Ten-Year Site Plan.” The standard offer contract previously offered by DEF, and approved by the Commission in Docket 130068, was based on the 2018 combined cycle generating unit in the Ten Year Site Plan. DEF issued an RFP for this unit in October 2013, hence obligating DEF to file a new standard offer contract based on the next combined cycle generating unit contained in its Ten Year Site Plan.
