**JEA'S PETITION FOR APPROVAL OF
NUMERIC CONSERVATION GOALS**

JEA, by and through its undersigned attorneys, files this petition with proposed numeric conservation goals and requests that the Florida Public Service Commission ("Commission") accept, approve and adopt JEA's proposed goals pursuant to section 366.82, Florida Statutes, and Rules 25-17.001 and 25-17.0021, Florida Administrative Code. In support, JEA states:

1. JEA is subject to section 366.82, Florida Statutes, part of the Florida Energy Efficiency and Conservation Act ("FEECA"), which requires the Commission to adopt and periodically review goals to increase the efficiency of energy consumption, increase the

development of demand side renewable energy systems, reduce and control the growth rates of electric consumption and weather sensitive peak demand, and encourage the development of demand side renewable energy resources.

1. All notices, pleadings and other communications required to be served on the petitioner should be directed to:

- COM _____
- AFD 1
- APA _____
- ECO 1
- ENG** 11

2. The panel testimony of Richard J. Vento and Donald P. Wucker filed contemporaneously with this petition explains the methodology by which JEA's proposed goals were derived and, along with the exhibits attached to the testimony, satisfy the minimum filing requirements established in the Order Consolidating Dockets and Establishing Procedure entered on August 19, 2013. *See* Order No. PSC-13-0386-PCO-EU.

3. As discussed in the panel testimony of Mr. Vento and Mr. Wucker, JEA utilized the same methodology used in the 2009 goal-setting proceeding to identify and evaluate potential conservation measures. Based on the results of those evaluations, JEA proposes FEECA goals of 0 MW (summer and winter) and 0 MWh (annual energy) for both the residential and commercial/industrial classes. As Mr. Vento and Mr. Wucker further discuss, however, JEA is in the process of revising its conservation program offerings to determine the appropriate level of investment in any non-RIM based measures based upon JEA Board policy.

4. JEA knows of no material facts in dispute regarding the relief requested herein.

WHEREFORE, JEA requests that the Florida Public Service Commission enter an order approving and establishing the Company's proposed numeric conservation goals for the period 2015 through 2024 pursuant to section 366.82, Florida Statutes, and Rule 25-17.0021, Florida Administrative Code, and grant such other relief as is just and reasonable under the facts and law as determined by the Commission.

Respectfully submitted this 2nd day of April, 2014.
