**To:** Laura King; Elisabeth Draper  
**Cc:** Benton, Barbara J.  
**Subject:** Info. re TEC/LAK territorial agreement

Laura and Elisabeth,

Tampa Electric and Lakeland evaluated the entire TEC/LAK border to identify areas that needed adjustment based on current facilities and load growth. These were the revisions that the utilities deemed necessary to resolve issues going forward.

Detail 1: (rural farm land) Tampa Electric does not have facilities in the area; Lakeland does and therefore can serve future load in this area more economically.

Detail 2: Tampa Electric has facilities available to serve future loads in these areas more economically ; Lakeland has no facilities to serve the block on the left and would have to overcome technical challenges to extend facilities to serve the block on the right making it less economical for Lakeland to serve.

Detail 3: Lakeland has no facilities in the area; Tampa Electric does and can serve more economically.

Detail 4: There are technical challenges for both utilities (e.g., maintaining clearances crossing over or under transmission lines, crossing railroad tracks, etc.) that would make service by the other less economical based on existing boundaries. The revisions consider the existing facilities of each utility and the ease or difficulty in extending those facilities for load growth.

Please let me know if you need additional information. Also, you can call Barbara Benton @ 813-228-4490. Barbara worked on this filing and can provide more information.
