

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Nuclear cost recovery clause.

DOCKET NO. 140009-EI
ORDER NO. PSC-14-0259-CFO-EI
ISSUED: May 23, 2014

ORDER GRANTING DUKE ENERGY FLORIDA, INC.'S REQUEST FOR CONFIDENTIAL CLASSIFICATION (DOCUMENT NO. 05702-10)

On July 12, 2010, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Duke Energy Florida, Inc. (DEF or Company) filed a request for confidential classification (Request) concerning portions of the final audit report of the Florida Public Service Commission (Commission) audit staff's work papers for Audit No. PA-10-01-001 (Audit Report). This Request was filed in Docket No. 100009-EI.

Request for Confidential Classification

DEF contends that the information provided in its July 12, 2010 filing, Document No. 05702-10, as more specifically described in Appendix C attached to DEF's Request, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. DEF asserts that this information is intended to be and is treated by DEF as private and has not been publicly disclosed.

DEF further asserts that portions of the Audit Report contain confidential contractual data, including pricing agreements and other confidential contractual terms, the release of which would impair DEF's competitive business interests, as well as violate certain nondisclosure provisions in these contracts. The Audit Report also contains information related to work authorization contractual amendments and other contractual data that is subject to confidentiality agreements between DEF and the other contracting parties. DEF negotiates each of its contracts to obtain the most competitive terms available to benefit DEF and its ratepayers. In order to successfully obtain such contracts, however, DEF must be able to assure the other parties to the contracts that the sensitive business information contained therein, such as quantity and pricing terms, will remain confidential. DEF contends that this information, if made public, would impair DEF's ability to contract for such goods and services on competitive and favorable terms. DEF also contends that portions of the Audit Report reflect the Company's internal strategies for evaluating projects and meeting deadlines. DEF argues that if such information is disclosed to DEF's competitors or other potential suppliers, DEF's efforts to obtain competitive nuclear equipment and service options that provide economic value to both the Company and its customers could be compromised by the Company's competitors or suppliers changing their offers, consumption, or purchasing behavior within the relevant markets. Additionally, DEF asserts that the public disclosure of this information could allow other potential suppliers, vendors, or purchasers of such services to change their position in future negotiations with DEF. DEF argues that without measures to maintain the confidentiality of sensitive terms in these contracts, the Company's efforts to obtain competitive contracts would be undermined.

Ruling

Section 366.093(1), F.S., provides that records the Commission has found to contain proprietary business information shall be kept confidential and exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093, F.S., provides that proprietary confidential business information includes, but is not limited to:

- (b) Internal auditing controls and reports of internal auditors.
- (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.
- (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information appears to be information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms and information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. The information also appears to contain information related to internal auditing controls; thus, the information identified in Document No. 05702-10 shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless DEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Julie I. Brown, as Prehearing Officer, that Duke Energy Florida, Inc.'s Request for Confidential Classification of Document No. 05702-10 is granted. It is further

ORDERED that the information in Document No. 05702-10 for which confidential classification has been granted shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Julie I. Brown, as Prehearing Officer, this 23rd day of May, 2014.
