RULE NO.: RULE TITLE:

25-30.455: Staff Assistance in Rate Cases

25-30.456: Staff Assistance in Alternative Rate Setting

25-30.457: Limited Alternative Rate Increase

PURPOSE AND EFFECT: Pursuant to section 367.0814(1), FS, Rules 25-30.455, 25-30.456, and 25-30.457 would be amended to increase the total gross annual operating revenues of water and wastewater utilities eligible for staff assistance in rate cases, alternative rate setting, and limited alternative rate increases from \$250,000 to \$275,000 or less for water or wastewater service, and from \$500,000 to \$550,000 or less for water and wastewater service combined. These rules would also be amended to remove from the Commission's consideration in ruling on an application whether the applicant has complied in a timely manner with all Commission decisions and requests for 2 years prior to the filing of the application. In addition, Rule 25-30.457 would be amended to also remove from the Commission's consideration in ruling on an application for limited alternative rate increase whether the utility has been granted a limited alternative rate increase within 3 years prior to the receipt of the application, and whether the utility is currently in compliance with any applicable water management district permit conditions concerning rate structure.

Docket No. 140093-WS

SUMMARY: Pursuant to Rules 25-30.455, 25-30.456, and 25-30.457, the total gross annual operating revenues of water and wastewater utilities eligible for staff assistance in rate cases, alternative rate setting, and limited alternative rate increases is currently \$250,000 or less for water or wastewater service, and \$500,000 or less for water and wastewater service combined. The rule amendments would increase those total gross annual operating revenues to \$275,000 or less for water or wastewater service, and to \$550,000 or less for water and wastewater service combined. Moreover, in ruling on an application pursuant to these rules, the Commission would no longer consider whether the applicant has complied in a timely manner with all Commission decisions and requests for 2 years prior to the filing of the application. In addition, in ruling on an application pursuant to Rule 25-30.457, the Commission would no longer consider whether the utility has been granted a limited alternative rate increase within 3 years prior to the receipt of the application, or whether the utility is currently in compliance with any applicable water management district permit conditions concerning rate structure.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION:

The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The SERC examined the factors required by Section 120.541(2)(c), FS, and concluded that the rule amendments will not have an adverse impact on economic growth, business competitiveness, or small business and that there would likely be regulatory cost savings to the entities required to comply with these rules.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: based upon the information contained in the SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.
