**Re: Docket No. 140009-EI**

Dear Ms. Stauffer:

Enclosed for filing on behalf of Florida Power & Light Company ("FPL") is a Request for Confidential Classification of Audit 14-007-4-2 Work Papers. Seven copies of FPL's request, including Exhibits C and D, are included. Also included are one copy of Exhibit A and two copies of Exhibit B.

Exhibit A consists of the confidential documents, and all information that FPL asserts is entitled to confidential treatment has been highlighted. Exhibit B is an edited version of Exhibit A, in which the information FPL asserts is confidential has been redacted. Exhibit C consists of FPL's justification table supporting its Request for Confidential Classification. Exhibit D contains two affidavits in support of FPL's Request for Confidential Classification. Also included in this filing is a compact disc containing FPL's Request for Confidential Classification and Exhibit C in Microsoft Word format.

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION**

In re: Nuclear Cost                    )  
Recovery Clause                        )

Docket No. 140009-EI  
Filed: June 12, 2014

**FLORIDA POWER & LIGHT COMPANY'S  
REQUEST FOR CONFIDENTIAL CLASSIFICATION OF  
AUDIT 14-007-4-2 WORK PAPERS**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") requests confidential classification of certain material provided to the Staff of the Florida Public Service Commission ("Staff") pursuant to Audit Control No. 14-007-4-2 ("the Audit") and reflected in Staff's work papers. In support of its request, FPL states as follows:

1. During the Audit, Staff was provided with various confidential documents. By letter dated May 22, 2014, Staff indicated its intent to retain certain audit work papers. Pursuant to Rule 25-22.006(3)(a), Florida Administrative Code, FPL was given 21 days from the date of the letter to file a formal request for confidential classification with respect to the work papers. Accordingly, FPL is filing this Request for Confidential Classification to maintain continued confidential handling of the confidential work papers.

2. The following exhibits are included with and made a part of this request:

a. Exhibit A includes a copy the confidential documents, in which all information that is entitled to confidential treatment under Florida law has been highlighted.

b. Exhibit B consists of a copy of the confidential documents, in which all information that is entitled to confidential treatment has been redacted.

c. Exhibit C is a table containing the specific line, column and page references to the confidential information, and references to the specific statutory basis or

bases for the claim of confidentiality and to the affidavit in support of the requested confidential classification.

d. Exhibit D includes the affidavits of Christie Gidos and Antonio Maceo in support of FPL's request.

3. FPL submits that the highlighted information in Exhibit A is proprietary confidential business information within the meaning of Section 366.093(3), Florida Statutes. This information is intended to be and is treated by FPL as private in that the disclosure of the information would cause harm to customers or FPL's business operations, and its confidentiality has been maintained. Pursuant to Section 366.093, such information is entitled to confidential treatment and it is exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review such as weighing the harm of disclosure against the public interest in access to the information.

4. As the affidavits included in Exhibit D indicate, some of information in the Audit work papers is proprietary, confidential business information. Certain information contained in the work papers is information related to reports of internal auditors. This information is protected by Section 366.093(3)(b), Florida Statutes. The work papers also contain information related to bids or contractual data, such as pricing or other terms, the public disclosure of which would violate nondisclosure provisions of FPL's contracts with certain vendors and impair FPL's ability to contract for goods or services on favorable terms in the future. Such information is protected from public disclosure by Section 366.093(3)(d), Florida Statutes. The work papers also include competitively sensitive information which, if disclosed, could impair the competitive interests of the provider of the information. Such information is protected from

public disclosure by Section 366.093(3)(e), Florida Statutes. Additionally, a few documents include competitively sensitive information related to certain employees' compensation. Public disclosure of compensation information would enable competing employers to meet or beat the compensation currently offered, resulting in the loss of talented employees, or conversely, the need to increase the level of compensation already paid in order to retain these employees and attract new talent. The quality of service and the cost of service implications would be detrimental to FPL and its customers. Such information is also protected by Section 366.093(3)(e), Florida Statutes.

5. Upon a finding by the Commission that the information highlighted in Exhibit A, and referenced in Exhibit C, is proprietary confidential business information, the information should not be declassified for a period of at least eighteen (18) months and should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business. *See* § 366.093(4), Fla. Stat.

**WHEREFORE**, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavits included herewith, Florida Power & Light Company respectfully requests that its Request for Confidential Classification be granted.

Respectfully submitted,

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, accounts payable, and accounts receivable. It also outlines the necessary steps for reconciling these accounts regularly to identify any discrepancies early on.

The second section focuses on the role of technology in modern accounting. It highlights how software solutions can streamline the recording and reporting process, reducing the risk of human error and saving valuable time. The document compares various accounting software options, discussing their features, costs, and ease of use. It also touches upon the importance of data security and backup procedures when using digital systems.

The final part of the document addresses the legal and regulatory requirements that govern financial reporting. It explains the significance of adhering to these standards to avoid penalties and maintain the trust of stakeholders. The document provides a summary of key regulations, such as the Sarbanes-Oxley Act, and offers practical advice on how to ensure compliance. It concludes by stressing the importance of transparency and ethical conduct in all financial dealings.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document provides a detailed explanation of how to categorize these transactions and how to use a double-entry system to ensure that the books are balanced.

The second part of the document focuses on the process of reconciling the books. It explains how to compare the company's records with bank statements and other external sources to identify any discrepancies. This process is crucial for detecting errors, such as double entries or omissions, and for ensuring that the company's records are accurate and up-to-date. The document provides a step-by-step guide to performing a reconciliation, including how to investigate and resolve any differences.

The third part of the document discusses the importance of regular audits. It explains that audits are necessary to verify the accuracy of the financial statements and to ensure that the company is complying with all applicable laws and regulations. The document provides a detailed explanation of the audit process, including how to select an auditor, how to prepare for the audit, and how to respond to any findings. It also discusses the importance of maintaining good communication with the auditor throughout the process.

The fourth part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document provides a detailed explanation of how to categorize these transactions and how to use a double-entry system to ensure that the books are balanced.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document provides a detailed list of items that should be tracked, such as inventory levels, employee salaries, and utility bills. It also outlines the proper procedures for recording these transactions, including the use of double-entry bookkeeping and the importance of regular reconciliations.

The second part of the document focuses on the analysis of the recorded data. It explains how to calculate key financial ratios and metrics, such as the gross profit margin and the current ratio. These calculations are essential for understanding the company's financial health and identifying areas for improvement. The document also discusses the importance of comparing the company's performance against industry benchmarks and providing a clear explanation of the reasons for any variances.

The final part of the document provides a summary of the findings and offers recommendations for future actions. It stresses the need for ongoing monitoring and reporting to ensure that the company remains on track with its financial goals. The document concludes by reiterating the importance of transparency and accuracy in financial reporting and encourages the company to continue to refine its processes and improve its overall financial performance.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document provides a detailed explanation of how to categorize these transactions and how to use a double-entry system to ensure that the books are balanced.

The second part of the document focuses on the process of reconciling the books. It explains how to compare the company's records with bank statements and other external sources to identify any discrepancies. This process is crucial for detecting errors, such as double entries or omissions, and for ensuring that the company's records are accurate and up-to-date. The document provides a step-by-step guide to performing a reconciliation, including how to investigate and resolve any differences.

The third part of the document discusses the importance of regular audits. It explains that audits are necessary to verify the accuracy of the financial statements and to ensure that the company is complying with all applicable laws and regulations. The document provides a detailed explanation of the audit process, including how to select an auditor, how to prepare for the audit, and how to respond to any findings. It also discusses the benefits of audits, such as increased transparency and improved financial management.

The fourth part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document provides a detailed explanation of how to categorize these transactions and how to use a double-entry system to ensure that the books are balanced.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The text suggests that a systematic approach to record-keeping is essential for identifying trends and making informed decisions.

Next, the document addresses the issue of budgeting. It explains that a well-defined budget is a critical tool for managing resources and controlling costs. By setting clear financial goals and allocating funds accordingly, individuals and organizations can avoid overspending and ensure that their financial objectives are met. The text provides practical advice on how to create a budget that is both realistic and flexible, allowing for adjustments as circumstances change.

The third section focuses on the importance of regular financial reviews. It argues that periodic assessments of financial performance are necessary to stay on track and identify areas for improvement. This involves comparing actual results against budgeted figures and analyzing any variances. The document highlights that these reviews should be conducted at regular intervals, such as monthly or quarterly, to catch potential problems early and take corrective action.

Finally, the document discusses the role of professional advice in financial management. It acknowledges that while many individuals can manage their finances on their own, there are times when consulting with a professional, such as an accountant or financial advisor, is beneficial. These experts can provide valuable insights, help with complex transactions, and ensure that all financial obligations are properly managed. The text encourages readers to seek professional help when needed to ensure the long-term success of their financial endeavors.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses, income, and any other financial activity. The document also highlights the need for regular reconciliation of accounts to identify any discrepancies early on.

In addition, the document provides a detailed overview of the accounting cycle, which consists of eight steps: identifying the accounting cycle, journalizing, posting, determining debits and credits, preparing a trial balance, adjusting entries, preparing financial statements, and closing the books. Each step is explained in detail, with examples provided to illustrate the process. The document also discusses the importance of maintaining proper documentation and the role of the accountant in ensuring compliance with applicable laws and regulations.

The second part of the document focuses on the preparation of financial statements. It explains the different types of financial statements, including the balance sheet, income statement, and statement of cash flows. It provides a step-by-step guide to preparing each of these statements, starting with the trial balance and moving through the necessary adjustments. The document also discusses the importance of presenting the financial statements in a clear and concise manner, using appropriate accounting principles and standards.

Finally, the document discusses the role of the accountant in providing financial information to management and other stakeholders. It emphasizes the importance of accurate and timely financial reporting, as well as the need for transparency and accountability. The document also discusses the various ways in which financial information can be used to make informed business decisions, such as identifying trends, evaluating performance, and forecasting future results.

East Preferred Corridor - General Description

(19-1)  
The proposed corridor width varies from approximately 150 to a maximum of 2,200 ft along the length of the East Preferred Corridor. This allows FPL the ability to maximize use of existing FPL rights-of-way, avoid constraints in some areas, and provide the necessary flexibility to locate a right-of-way consistent with local conditions and landowner and agency input. Once a corridor is certified, FPL expects to use an existing FPL 330-ft-wide right-of-way from the Turkey Point plant property to the Davis substation. Approximately 6.5 miles of this existing right-of-way will also be used to accommodate the Project's reclaimed water pipeline that will come from the Miami-Dade County wastewater treatment system originating from the South District Wastewater Treatment Plant. From the Davis substation FPL proposes to use an existing FPL right-of-way of variable width north and east to U.S. 1. After reaching U.S. 1, FPL generally plans to locate within an existing transportation right-of-way of variable width northeast to the vicinity where Interstate 95 (I-95) and Metrorail diverge. The corridor is expanded, however, around the Metrorail stations (Dadeland South, Dadeland North, Douglas Road, Coconut Grove, Vizcaya, and Brickell). This is to provide flexibility in locating the right-of-way at these congested areas, while also maintaining the ability to accommodate potential future development associated with these mass transit stations. In the vicinity where I-95 and Metrorail diverge, the corridor expands to provide flexibility in locating the right-of-way as it approaches the Miami substation.

Once a corridor is certified and FPL acquires the property interests required for the rights-of-way, the boundaries of the certified corridor will narrow to only that land within the right-of-way. At that point, the remainder of the corridor will have no further legal significance related to this certification.

The total length of the East Preferred Corridor is approximately 36.7 miles; between Clear Sky and Davis is 19 miles, and between Davis and Miami is 17.7 miles.

East Preferred Corridor from Clear Sky to Davis - Detailed Description

(The detailed description is best used by following the description while viewing the detailed maps.)

The East Preferred Corridor begins within the Turkey Point plant property at the boundary of the Turkey Point Units 6 & 7 Site. The first 1.8 miles of the East Preferred Corridor is entirely within

9/14/0

FPL's Turkey Point plant property and will accommodate both the Clear Sky-Turkey Point 230-kV and Clear Sky-Davis 230-kV transmission lines. In this area, the corridor varies from 330 to 800 ft in width. FPL has a multi-circuit transmission line right-of-way running north from the Turkey Point substation for approximately 17.2 miles to the Davis substation. North of the Turkey Point plant property, the East Preferred Corridor is limited to that existing transmission line right-of-way, which is approximately 330 ft in width and will accommodate the Clear Sky-Davis 230-kV transmission line.

After exiting the Turkey Point plant property, the corridor continues due north for several miles and then turns west along SW 261<sup>st</sup> Street until the corridor crosses Florida's Turnpike (Homestead Extension) and turns northwestward to U.S. 1. After crossing U.S. 1, the corridor again proceeds due north to approximately SW 212<sup>th</sup> Street, where it turns northwest to SW 208<sup>th</sup> Street and then north again. It continues due north to approximately SW 164<sup>th</sup> Street, where it turns northeast to the Davis substation. At this point, the corridor includes the entire FPL property surrounding Davis substation. The corridor from Clear Sky to Davis is within the jurisdiction of Miami-Dade County.

**East Preferred Corridor from Davis to Miami – Detailed Description**

(The detailed description is best used by following the description while viewing the detailed maps.)

North of the Davis substation along SW 131<sup>st</sup> Street, the corridor turns eastward along an existing FPL multi-circuit transmission line easement of varying widths for 4.4 miles to U.S. 1. At this point, FPL's existing easement and two transmission lines cross U.S. 1 and continue east, while FPL's East Preferred Corridor heads northeastward along U.S. 1.

Along U.S. 1, the corridor encompasses the U.S. 1/Busway right-of-way and is generally widened to include an additional 30 ft on either side of this transportation corridor. It is FPL's intent to locate its right-of-way along the Busway right-of-way immediately west of the U.S. 1 right-of-way. However, since the authority to place the new line within the Busway right-of-way has not yet been secured, and to provide flexibility in a relatively congested siting area, the corridor includes the east side of U.S. 1 and the west side of the Busway as well. The East Preferred Corridor is approximately 260 ft wide in this portion of the route. Along the east side of U.S. 1 in this area, the corridor includes a narrow strip of the jurisdictions of Palmetto Bay and Pinecrest.

5/14/88

When the corridor reaches the Palmetto Expressway/Dadeland area, it is widened to approximately 2,200 ft. The east corridor boundary in this area remains generally 30 ft east of the U.S. 1 right-of-way. The west corridor boundary expands to approximately 30 ft west of the SW 77<sup>th</sup> Avenue right-of-way. After crossing Kendall Drive, the boundary turns east approximately 30 ft north of the Kendall Drive right-of-way and then turns north approximately 30 ft west of the Palmetto Expressway right-of-way. When the west corridor boundary reaches the middle of the Snapper Creek Canal, it turns back to the east following the centerline of the Snapper Creek Canal (parallel to Dadeland Mall Road) to the FEC right-of-way located along SW 70<sup>th</sup> Avenue. The corridor boundary then proceeds north approximately 30 ft west of the FEC right-of-way to the centerline of SW 80<sup>th</sup> Street and then proceeds east back to 30 ft west of the U.S. 1/Metrorail right-of-way. The widening of the corridor in this area will provide flexibility in siting the transmission line in a heavily congested area.

Proceeding northeastward along U.S. 1 from the Dadeland area, the corridor generally includes the area from 30 ft east of the east right-of-way boundary of U.S. 1 to 30 ft west of the west boundary of the Metrorail right-of-way. The corridor crosses the jurisdiction of South Miami at this point. The corridor varies in width depending on the widths of those transportation rights-of-way. FPL also expands the corridor to include the centerline of Ponce de Leon Boulevard beginning at SW 57<sup>th</sup> Avenue/Red Road northeast to Ruiz Avenue. This expansion of the corridor will provide the opportunity to collocate the new transmission line with the existing 138-kV transmission line on the east side of Ponce de Leon Boulevard. This area crosses the jurisdiction of Coral Gables.

The corridor is further expanded to accommodate siting constraints around the Douglas Road Metrorail station and provide the opportunity to incorporate other transmission improvements planned independent of the Turkey Point Units 6 & 7 Project, thereby avoiding another transmission line segment in this area. The west corridor boundary in this area expands to include approximately 30 ft north of Ruiz Avenue, approximately 30 ft west of SW 38<sup>th</sup> Avenue, and approximately 100 ft north of Bird Road/SW 40<sup>th</sup> Street until it reaches a point approximately 30 ft west of the Metrorail/U.S. 1 right-of-way. From this location to the Miami substation, the East Preferred Corridor lies within the jurisdiction of the City of Miami.

Further north, the corridor is again expanded at the Coconut Grove Metrorail station both to the north and south of the U.S. 1/Metrorail transportation corridor to provide flexibility in a relatively congested area. In this area, the west corridor boundary proceeds approximately 30 ft west of the SW 29<sup>th</sup> Avenue right-of-way, approximately 30 ft north of the SW 27<sup>th</sup> Terrace right-of-way and then approximately 250 ft east of the SW 27<sup>th</sup> Avenue right-of-way until the boundary reaches 30 ft north of the Metrorail/U.S. 1 transportation corridor, at which point it again proceeds approximately 30 ft west of the Metrorail right-of-way boundary. South of U.S. 1 in this location, the corridor boundary proceeds approximately 30 ft south of the SW 28<sup>th</sup> Terrace right-of-way, approximately 30 ft east of the SW 27<sup>th</sup> Avenue right-of-way, approximately 30 ft south of the SW 28<sup>th</sup> Street right-of-way, and then approximately 30 ft east of the SW 26<sup>th</sup> Avenue right-of-way until the boundary reaches 30 ft south of the U.S. 1 right-of-way.

5/14/8

Proceeding northeastward, the corridor is again expanded in the vicinity of the Vizcaya Metrorail station to provide flexibility around the station. The corridor is expanded to include a short stretch of SW 1<sup>st</sup> Avenue and the Metrorail parking lot on the north (west) side of U.S. 1.

Just north of the Vizcaya Metrorail station, I-95 intersects the East Preferred Corridor. Here the west (north) corridor boundary widens to proceed approximately 30 ft north (west) of the SW 1<sup>st</sup> Avenue right-of-way and to a point approximately 30 ft west of the intersection with the I-95 right-of-way. The east (south) corridor boundary in this area proceeds approximately 30 ft south of the U.S. 1 right-of-way, and then turns east approximately 30 ft east of the South Miami Avenue right-of-way. Approximately 30 ft north (east) of the SW 26<sup>th</sup> Road right-of-way, the east corridor boundary proceeds west to approximately 30 ft east of the I-95 right-of-way. The east corridor boundary then proceeds north (east) approximately 30 ft east of the I-95 right-of-way boundary. In the area of SW 19<sup>th</sup> Road, I-95 and the east corridor boundary turn to the west. The east corridor boundary then proceeds north (east) approximately 30 ft south of the Metrorail right-of-way.

Where I-95 crosses over to the west side of Metrorail, the East Preferred Corridor is again widened to allow flexibility in the approach to the Miami substation. The west edge of the corridor crosses I-95 from west to east and borders the east right-of-way boundary of I-95 north to SW 5<sup>th</sup> Street. From there, the west edge of the corridor turns northeast across the Miami River into the Miami substation property.

Along the east side of the corridor in this area, the corridor boundary extends approximately 30 ft east of the Metrorail right-of-way past Simpson Park and then east approximately 30 ft south of the SW 15<sup>th</sup> Road right-of-way to 30 ft east of the SW 1<sup>st</sup> Avenue right-of-way, where it turns north to SW 7<sup>th</sup> Street. The corridor boundary then turns northeast for a short distance along the east road right-of-way of South Miami Avenue, then turns north to the west of South Miami Place, and then turns northwest to cross the river. This alignment continues due north along the east boundary of the Metrorail property north of the Miami River and then to the Miami substation (see Figure E9.1.0-1, Sheet 20 of 20).

SMO

The East Preferred Corridor in this area of Miami allows flexibility in siting an overhead route to the Miami River, the crossing of which is at present proposed to be subaqueous.

The total length of the East Preferred Corridor is 36.7 miles.

In addition to crossing the jurisdiction of Miami-Dade County, the East Preferred Corridor also crosses portions of the Villages of Palmetto Bay and Pinecrest and the Cities of South Miami, Coral Gables, and Miami.

Alternate Corridors

Based on recent changes to the Power Plant Siting Act (PPSA), an applicant under the PPSA has the option to allow other parties to submit alternate corridors to its own proposed corridors. FPL is opting to allow other parties to file alternate corridors for consideration in the certification proceeding along with the East Preferred Corridor proposed in the application.

If any party wishes to file an alternate corridor to FPL's East Preferred Corridor, they should contact Florida Department of Environmental Protection's Siting Coordination Office for specific instructions or consult the PPSA, Sections 403.501 through .518, F.S., and rules adopted thereunder, Chapter 62-17, Part I, F.A.C. Public notice of the alternate corridor will be required pursuant to Sections 403.5271 and 403.5363, F.S.

FLORIDA PUBLIC SERVICE COMMISSION  
 COMPANY: Florida Power & Light Company  
 DOCKET NO.: 140009-EI

EXPLANATION: Provide additional details of contracts executed in excess of \$1 million including, the nature and scope of the work, the nature of any affiliation with selected vendor, the method of vendor selection, brief description of vendor selection process, and current status of the contract.

For the Year Ended 12/31/2013  
 Witness: Steven D. Scroggs

**Contract No.:** 4500518160

**Major Task or Tasks Associated With:** Post SCA Submittal Support

**Vendor Identity:** Golder & Associates, Inc.

**Vendor Affiliation (specify 'direct' or 'indirect'):** Direct

**Number of Vendors Solicited:** One

**Number of Bids Received:** One

**Brief Description of Selection Process:** Initial contract awarded Single Source; Designated as Predetermined Source February 2010 through July 2013.

**Dollar Value:** [REDACTED]

**Contract Status:** Open - CO#10

**Term Begin:** 07/23/09

**Term End:** 11/28/13, term to be extended through upcoming change order

**Nature and Scope of Work:** Post-SCA Submittal Support

A

Accrued payroll amounts and overtime hours are excluded from amounts. Additionally, 142.40 hours charged to non-incremental IO PB0000019250 and 5 hours charged to non-incremental IO PB0000021305 are not included in the payroll report provided in response to DR 3 as these costs are non-incremental and not recovered through the Nuclear Cost Recovery Clause.

(A) 25,217.02 - 142.40 - 5.00 = 25,069.62

**Q.**

**RE: DR 3 PAYROLL**

Please provide the calculation of incremental nuclear payroll for the attached employees. Include total employee hours and allocation to Nuclear, Other Clauses and Base Rates.

Why was account 8260050 not included in the July-December transactions?

**A.**

Please see the response to DR 28 for hours charged to NCRC, Other Clauses and Base Rates. All payroll charged to the NCRC is incremental, as non-incremental payroll is charged to base rates.

Account 8260050 was included on the July - December transactions, for example there are multiple line items toward the bottom of page 12 of 33 of the DR 19 Payroll Report reflecting hours charged to account 8260050; however, overtime hours were not included in the report for Q1 and Q2. Please see the attached documents Timesheet Report, Payroll Report and Q1-Q2 Payroll OT Schedule.

 \* 46-1/3-1  
 \* 46-1/3-2

Net Variance - Calculated vs Actual

The Loader Rate Calculation based on published loader rates varied from the actual loader rates by [REDACTED] an immaterial amount.  
 (C) Staff recalculated the overheads for the first six months and compared to the general ledger. The difference was [REDACTED] or [REDACTED] the total difference of [REDACTED] 46-1/3-3). Also, the company used [REDACTED] instead of [REDACTED] to calculate the payroll overhead (46-1/3).

Notes:

- Bargaining, OT & Other Labor were omitted from the Jan - Jun DR 3 Payroll Schedule. To reconcile the payroll adders amounts all payroll accounts are included here. The sum of accounts 8260000 and 8260010 of [REDACTED] ties to the auditor work paper for January to June.
- FPL Payroll Tax OH and FPL AFF Workers Comp are both allocated to Payroll Taxes account 8560000.
- Performance Incentives Overhead is only calculated on Exempt Payroll.

14994			With minimal supervision, provides administrative and secretarial support to VP. Screen mail and calls. Efficiently manage schedules and appointments. Knowledge of proper English usage, spelling, grammar, punctuation, vocabulary, letter and procedure writing, report formats for tables, graphs and statistical data. Maintain strict confidentiality. Effectively and willingly adjusts and accepts changes in priority and direction. Originates action to improve processes; self-starting, acts independently when appropriate; takes action the first time given instructions.
16554			Performs advanced, diversified and confidential administrative duties requiring broad and comprehensive experience, skills and knowledge of organizational policies and practices. Responsibilities include but are not limited to: production and interpretation of reports, addressing reporting issues, conducting routine assignments and analysis, participating in special projects, responding to information and data requests, documenting and recommending enhancements to processes and procedures. Interact with related internal and external customers on a routine basis. Works under general supervision. Relies on multiple years of experience to plan and accomplish assigned task and goals. Requires 5+ years relevant experience or equivalent combination of post high school level academic work (some college) and relevant work experience. Associate's degree preferred. Experience in developing presentations and spreadsheet reports and demonstrated proficiency in analytics strongly desired.
17267			Key responsibilities include: 1) Coordinate and manage a unique accounting function; 2) Lead complex accounting projects. Key decisions include judgements/recommendations regarding corporate accounting practices. Budget authority is <\$10,000/year and is limited to general expenses. Must be able to present to and communicate clearly and effectively with (written and oral) all levels internally and externally, including executives. Advanced and Expert proficiencies identified for several position-specific skills (qualifications), most notably Communication, SEC/GAAP knowledge, and Professional Judgement. BS/MS in accounting and CPA are essential. MBA is preferred. This position reports directly to a Sr. Manager, Director, Assistant Controller, or VP Accounting.
17319			Manage the engineering, procurement, construction, environmental and energization activities of Power Delivery projects to ensure compliance to project goals. Assure that project alternatives have been reviewed to provide compatibility with existing facilities and future plans. Ensure compliance with all environmental and other regulatory requirements in support of FPL's vision. Evaluate initial plans and any required design or construction changes and lead team members to find solutions that provide for achieving project specifications at the most competitive cost. Participate in contract negotiations, evaluate and approve selection of project contractors and suppliers of major components.
18502			Assists in managing the Nuclear Cost Recovery Clause (NCRC). Major responsibilities include: 1.) Assisting the NCRC team with all filings, data requests, and discovery requests. 2.) Monitors the major events associated with the NCRC docket. 3.) Ensures all documents are delivered to the Florida Public Service Commission on a timely basis. Hired specifically for the NCRC.
18620			Responsible for performing engineering assignments of a complex nature requiring application of engineering skills. Assignments involve planning and organizing projects and the application of highly specialized knowledge in carrying out the work. Provides technical support to lower level professionals. Typically requires 8 to 10 years of experience and a B.S. in Engineering. May also require a Professional Engineering certification.
19295			Develop and evaluate policies, programs and processes. Directs the material management operations in support of Nuclear and Power Systems. Set the policies and standards for the organization to ensure services are being satisfactorily delivered to the business units in an efficient manner. Direct the management of all material, equipment, spare parts, inventory services personnel, investment recovery for Nuclear and Power Systems. BS/BA Business, Finance, Engineering or the equivalent. MBA with emphasis on Logistics/Supply Chain is preferred or 10 years experience with a minimum of 8 years in a management capacity.
19675			Consults extensively with engineers and makes decisions and recommendations having significant impact on engineering and related activities of company. At this level, individuals demonstrate creativity, foresight and mature engineering judgment as they anticipate and solve unprecedented engineering problems, determine program objectives and requirements, and develop standards and guidelines for diverse engineering activities. Selects research problems to further the company's objectives. Conceives and plans investigations of areas of importance for which engineering precedents are currently lacking. Contributes new designs or techniques that are regarded as major advances in the field. Initiates and maintains extensive contacts with key engineers from other companies, suppliers and industry associations to influence the direction of the industry in their area of expertise. This position is for an individual who is a recognized authority in their field both within the company and the industry and is the highest level on the engineering ladder reached by only a few of an organization's engineers.

21433			Direct and manage the Company-wide effort to develop, justify and obtain approval for FPL's strategic integrated resource plan to reliably and cost-effectively meet customers' future demand for electricity, taking in consideration fuel, transmission, generation, conservation, environmental and public perception factors. Direct and manage the development and implementation of solicitations for generation capacity and the evaluation of proposals, in accordance with the FPSC Bid Rule. Design, direct and manage analytical processes and results evaluations in support of FPL business units' decisions regarding serving new customers, converting, upgrading or replacing existing generation resources, upgrading or diversifying fuel supply or transportation systems. Represent FPL in Florida-wide and regional resource planning efforts, and workgroups such as FRCC and NERC. Direct and manage analysis processes related to fuel cost projections, environmental compliance, negotiation of power purchases and support for FPL's position in litigation. Direct the evaluation of existing and newly developed systems models and the implementation of model upgrades and modifications as necessary and appropriate. Provide to the Senior Director, Resource Assessment and Planning, and the FPL senior management team actionable recommendations that address the incumbent's area of responsibility. A bachelors' degree in science, math or engineering and minimum of seven years of experience in generation resource planning and analysis are required, as well as a clear understanding of planning models. An advanced degree in any of the above disciplines is desirable.
21487			This job participates in legal matters and projects of varying complexity; provides written and oral legal advice to clients; anticipates and guards against legal risks involving the organization; delivers timely and quality legal services to clients with moderate supervision from Senior or Managing Attorney; works to ensure budget compliance; avoids the need for outside counsel and ensures disclosure of potentially material legal issues to Managing Attorney. Bachelor's Degree, Juris Doctor, 3-5 years law practice, and one state bar admission or Florida in-house counsel certificate (only valid for Florida based positions) required.
23302			Responsible for the business development functions of the company throughout the country and or specific geographic region. Responsible for leading and coordinating key functions, ie financial feasibility analysis, engineering/design, project/legal review, and financial negotiations.
24224			Provides lead day-to-day legal support and advice on matters that involve or affect a substantial portion of the company's revenues and involves significant contact with senior management. Around 25 years practice of law is most appropriate for incumbents in position, however consideration is given to the equivalent combination of business and legal experience in field (however, combined experience must include at least 10 years practice of law).
25295			Participates in complex legal matters and projects; provides written and oral legal advice to clients; anticipates and guards against legal risks involving the organization; delivers timely and quality legal services to clients with minimal supervision; works to ensure budget compliance; avoids the need for outside counsel; ensures disclosure of potentially material legal issues to Managing Attorney. Bachelor's Degree, Juris Doctor, 5-10 years law practice, and one state bar admission or Florida in-house counsel certificate (only valid for Florida based positions) required.
26768			Manages multiple multifaceted environmental issues, licensing and permitting processes, legislative development, staff resources and related activities to provide management support to FPL Group departments. Minimum of ten years experience in related environmental regulatory activities, electric utility operations, or business management.
27100			Executes sourcing process for New Nuclear Projects, implementing policies and programs providing contracted services and materials. Develops and executes complex sourcing agreements containing unique terms and conditions. Key responsibilities include: execution of sourcing process; analyze bid request responses; conduct negotiations meeting schedule restraints; participate in sourcing data analysis, forecasting and planning. Requirements are an undergraduate degree in Supply Chain Management, Business or Engineering; MBA preferred; four years related experience; good communication leadership and interpersonal skills.
28029			Responsible for project administration functions including but not limited to the preparation of project cash flow reports, funding administration, budgets and schedules for a project. Additionally, may monitor site safety, project agreements including supply, construction and financing agreements. Administrator is typically located at the project site.
28663			Senior legal advisor to the company and senior management in functional area or discipline requiring high level of professional expertise and experience with major financial implications to the company or a business unit. Also, exercises management supervision over several lawyers and staff, including talent management, employee engagement, completion of performance evaluations, compensation recommendations, and promotion/retention recommendations; heads a group of lawyers organized along the lines of legal specialization or company components; provides legal advice and service on complex legal issues; examines facts and law to determine advisability of defending or prosecuting lawsuits; represents the company in litigation; regulatory proceedings, government investigations, and/or legal transactions; manages to budget; ensures compliance with company Code of Business Conduct and Ethics and litigation hold process; ensures reporting of potentially material legal issues to audit function and senior management. Bachelor's Degree, Juris Doctor, 10+ years law practice, and one state bar admission or Florida in-house counsel certificate (only valid for Florida based positions) required.

29212			Responsible for reviewing design parameters and specifications for system installations for new nuclear plant construction.(PTN 6&7). Provides constructability input and expertise for development and review of a Combined Operating License application. Acts as technical contact and interface for NuStart Electrical and APOG Construction Groups and the construction of PTN 6&7 facility. Performs advanced engineering tasks or other special projects requiring a high level of experience and expertise necessary for the design, construction, and testing of the new nuclear units. Provides backup for supervision when required.
31846			This job participates in legal matters and projects of varying complexity; provides written and oral legal advice to clients; anticipates and guards against legal risks involving the organization; delivers timely and quality legal services to clients with moderate supervision from Senior or Managing Attorney; works to ensure budget compliance; avoids the need for outside counsel and ensures disclosure of potentially material legal issues to Managing Attorney. Bachelor's Degree, Juris Doctor, 3-5 years law practice, and one state bar admission or Florida in-house counsel certificate (only valid for Florida based positions) required.
32181			Provide docket coordination on major dockets and supervise others in the coordination of dockets before FPSC and/or FERC. Coordinate the timely and accurate preparation of the accounting, financial, planning operating and statistical data required in filing rate cases and regulatory proceedings and responses to requests coming from the FPSC and/or FERC and ensure Company compliance with regulatory requirements. Develop and maintain credible and professional relationships with FPSC and/or FERC Staff personnel. Provide guidance and assistance to various departments within the Company in responding to regulatory requests. Subject matter expert to regulatory issues managers on process, strategy and regulatory procedures. Responsible for coaching managers on company past practice. Significant FPL regulatory experience required, 10+ years experience in specifically FPL regulatory issues.
32764			Assists in managing the Nuclear Cost Recovery Clause (NCRC). Major responsibilities include: 1.) Assisting the NCRC team with all filings, data requests, and discovery requests. 2.) Monitors the major events associated with the NCRC docket. 3.) Ensures all documents are delivered to the Florida Public Service Commission on a timely basis. Hired specifically for the NCRC.
33219			Position oversees licensing project for the licensing, construction, and operation of new nuclear facilities. Ensures that they are completed on time, within the established budget and in compliance with standards for quality/functionality and applicable regulatory requirements. Serves as overall Project coordinator; responsible for coordination between senior management, site management, engineering, contract staff and regulatory agencies to ensure smooth execution of all aspects of the project. Determines the number of personnel required to staff specific elements of the project and recommends to executive management the assignment of appropriately qualified personnel; establishes a regulatory management team with a versatile technical and managerial background capable of dealing with various problems. Utilizes extensive experience and knowledge in leading the design and licensing activities; and managing project close out and transition procedures. Requires significant experience in a management capacity. Excellent verbal and written communication and negotiation skills are required.
33485			Manages the development of plans and the execution of new generation projects (PTN 6&7) to fulfill the requirements established by the Manager of Projects. Day-to-day responsibility for resource allocation, schedules, cost and technical adequacy, ensuring the project is completed in the most cost effective and competitive manner. Responsible for day-to-day activities associated with planning, design, engineering, environmental, licensing, permitting, procurement, construction and start-up; timely completion within the scheduled and budgetary constraints and in compliance with applicable technical requirements; compliance with all regulatory requirements.
33592			Participates in complex legal matters and projects; provides written and oral legal advice to clients; anticipates and guards against legal risks involving the organization; delivers timely and quality legal services to clients with minimal supervision; works to ensure budget compliance; avoids the need for outside counsel; ensures disclosure of potentially material legal issues to Managing Attorney. Bachelor's Degree, Juris Doctor, 5-10 years law practice, and one state bar admission or Florida in-house counsel certificate (only valid for Florida based positions) required.
33613			Plans, develops, coordinates and directs large important projects or small projects with complex problems. Provides expertise and leadership for the completion of assigned projects. Performs tasks requiring original concepts and a high level of experience and expertise with little or no supervision, leads teams or other small groups and have special expertise in a particular field or discipline. Working knowledge of nuclear industry standards and regulations. Has demonstrated several years successful experience leading advanced complex engineering projects. Bachelor degree preferred, but equivalent experience may substitute. Minimum of 3 yrs specialist or 10 yrs related experience.

36219		Identify and analyze the financial impacts of issues and specific decisions facing FL and propose strategies to maximize the financial performance. Identify and analyze the impact on the financial structure, profitability, financial integrity and competitive position of relevant issues. Evaluate the impact on financial structure, profitability, financial integrity and competitive position of all strategic and tactical resource allocation plans. Bachelor's degree in finance, accounting or other technical field required. MBA, CPA, or other relevant graduate degree highly desirable. 3 years of utility or other relevant experience required. Job function will also include New Nuclear Construction Project support of the annual Nuclear Cost Recovery Clause filings and budget submittals; providing research and audit support for the Production of Documents (POD) and interrogatories as required.
36228		Assists in managing the Nuclear Cost Recovery Clause (NCRC). Major responsibilities include: 1.) Assisting the NCRC team with all filings, data requests, and discovery requests. 2.) Monitors the major events associated with the NCRC docket. 3.) Ensures all documents are delivered to the Florida Public Service Commission on a timely basis. Hired specifically for the NCRC.
36381		Responsible for managing the engineering, procurement and construction oversight activities necessary to develop, license/permit, erect, start-up, and commence commercial operation of between one and four energy project sites. Provides the daily interface with project's designated management committee or acts as Executive Director of project activities. May supervise and/or coordinate activities or groups such as safety programs, engineering, construction, budget, analysis and contract administration
41550		Obtains environmental approvals, licenses and permits for construction and operation of new and existing FPL facilities from Federal, State and Regional agencies. Assists the company's conformance to Federal and State environmental requirements. Provides the necessary technical expertise to resolve environmental matters. Shapes environmental policies and regulations to benefit the company and its customers. Seven or more years of experience in related field, or advanced degree required.
41831		Executes sourcing process for New Nuclear Projects, implementing policies and programs providing contracted services and materials. Develops and executes complex sourcing agreements containing unique terms and conditions. Key responsibilities include: execution of sourcing process; analyze bid request responses; conduct negotiations meeting schedule restraints; participate in sourcing data analysis, forecasting and planning. Requirements are an undergraduate degree in Supply Chain Management, Business or Engineering; MBA preferred; four years related experience; good communication leadership and interpersonal skills.
41921		Obtains environmental approvals, licenses and permits for construction and operation of new and existing FPL facilities from Federal, State and Regional agencies. Assists the company's conformance to Federal and State environmental requirements. Provides the necessary technical expertise to resolve environmental matters. Shapes environmental policies and regulations to benefit the company and its customers. Five or more years of experience in related field, or advanced degree required.
41950		Directs and manages all aspects of nuclear licensing activities for the development of a COLA and during the construction of new nuclear generating facilities for Florida Power & Light Company. Interfaces with nuclear regulatory agencies on a regional and national level. Ensures timely submission of accurate and complete applications and other required documentation. Company representative in industry organizations focused on new nuclear-plant construction. Bachelor of Science Degree in engineering or related science, advanced degree preferred, 10 -15 years of Nuclear plant experience, with at least 7 in a supervisory or management capacity. Minimum of 5 years experience dealing directly with the Nuclear Regulatory Commission on site licensing matters, excellent oral and written communications skills, project management and project development experience, current knowledge and experience in NRCs new licensing process for new plants, experience in working with and making presentations to Sr. Executives and governmental agencies.
42015		Under limited supervision, position ensures compliance with the NELAC certification at the Central Lab. The quality control, quality assurance, training, equipment reliability & maintenance are critical focus areas for this position in order to comply with the certification requirements. Position uses statistical evaluation to manage the quality control program at the Central Lab. In addition this position is responsible for leading R&D projects at the lab. Majority of time is spent in Quality Control/Quality Assurance and project management. Job may include other misc duties as assigned. Bachelor's Degree in related field and 3-5 years relevant duties experience required.
42814		Keeps abreast of and applies GAAP, SEC regulations, and relative company policies, practices and procedures. Assists in researching, analyzing and reporting on issues that affect the company, recommending possible solutions, and assisting with the follow-up activities to resolve them. Assures accounting integrity of corporate financial data through the implementation of appropriate internal controls. Assists in preparing financial reports in a timely manner that are in compliance with GAAP and accurately reflect the financial status of the company. Independently prepares schedules and journal entries. Good communication skills, oral and written, are needed. Bachelor's degree in Accounting or a related field, plus 2-3 years accounting experience required. A CPA, CMA, MBA or Master's in Accounting is preferred.

Q.  
 RE: AFFILIATE

For the lower of cost or market analysis provide the following:

1. Compare each affiliate rate to three different vendors offering the same service.
2. Explain why an affiliate employee was chosen over any other vendor offering the same services.
3. Support for all market rates through Contracts or Purchase Orders.

A.

1. During 2013, the fully loaded Affiliate rate charged to PTN 6&7 for the two NEER employees identified in response to DR 17 ranged from [redacted] to [redacted]. Rates from 3 external legal firms that charged PTN 6&7 during 2013 are as follows:

- Bercow and Radel rates range from [redacted] (Associate) to [redacted] (Partner) <sup>A</sup>
- Birch Horton Bittner & Charot rates range from [redacted] (Associate) to [redacted] (Partner) <sup>A</sup>
- Pillsbury, Winthrop, Shaw & Pittinan rates range from [redacted] (Associate) to [redacted] (Partner) <sup>A</sup>

(1) Total "productive" dollars for all NextEra Energy Resources companies based on wage type. Data obtained from HR payroll.  
 (2) Senior executive incentive dollars for NextEra Energy Resources (excludes PMO).

Purpose of this calculation is to allocate executive bonus to all companies. This was accomplished by dividing executive incentive dollars by total productive dollars for each company. The dollar value of [redacted] obtained from the above calculation was used as the basis for the "non productive" analysis in lieu of the total executive bonus dollar value. The determining factor for not using the total executive bonus dollar value of [redacted] is because executive's benefit all companies. The dollar percentage for NextEra Energy Resources and NextEra Energy Project Mgmt, are used in the non productive calculation. It seems reasonable to only use the executive bonus dollars relative to these two companies.

# **EXHIBIT D**

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Nuclear Power Plant Cost )  
Recovery Clause )

DOCKET NO. 140009-EI

STATE OF FLORIDA )  
 )  
PALM BEACH COUNTY )

AFFIDAVIT OF CHRISTIE GIDOS

BEFORE ME, the undersigned authority, personally appeared Christie Gidos who, being first duly sworn, deposes and says:

1. My name is Christie Gidos. I am currently employed by Florida Power & Light Company ("FPL") as Senior Financial Analyst in the Project Controls group for Turkey Point 6 & 7. I have personal knowledge of the matters stated in this affidavit.

2. I have reviewed Exhibit C and the documents that are included in FPL's Request for Confidential Classification of information contained in staff's work papers for Audit Control No. 14-007-4-2, for which I am identified on Exhibit C as the affiant. The documents and materials that I have reviewed contain proprietary confidential business information, including contractual data and competitively sensitive data. Disclosure of this information would violate FPL's contracts with its vendors, work to the detriment of FPL's competitive interests, impair the competitive interests of its vendors and/or impair FPL's efforts to enter into contracts on commercially favorable terms. Additionally, certain of these materials contain competitively sensitive information related to certain employees' compensation. Public disclosure of compensation information for particular positions would enable competing employers to meet or beat the compensation offered by FPL, resulting in the loss of talented employees, or conversely, the need to increase the level of compensation already paid in order to retain these employees and attract new talent. The quality of service and the cost of service implications would be detrimental to FPL and its customers. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Affiant says nothing further.

Christie Gidos

STATE OF FLORIDA )  
MIAMI-DADE COUNTY )

AFFIDAVIT OF ANTONIO MACEO

BEFORE ME, the undersigned authority, personally appeared Antonio Maceo who, being first duly sworn, deposes and says:

1. My name is Antonio Maceo. I am currently employed by Florida Power & Light Company ("FPL") as Manager of Auditing. I have personal knowledge of the matters stated in this affidavit.

2. I have reviewed Exhibit C and the documents that are included in FPL's Request for Confidential Classification of information contained in staff's work papers for Audit Control No. 14-007-4-2, for which I am identified on Exhibit C as the affiant. The documents or materials that I have reviewed contain information related to reports of internal auditors. Full and frank disclosure of information to the Internal Auditing department is essential for the department to fulfill its role, and the confidential status of internal auditing process, findings, and reports supports such disclosure. The release of information related to reports of internal auditors would be harmful to FPL and its customers because it may affect the effectiveness of the Internal Auditing department itself. To the best of my knowledge, FPL has maintained the confidentiality of these documents and materials.

3. Consistent with the provisions of the Florida Administrative Code, such materials should remain confidential for a period of not less than 18 months. In addition, they should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business so that FPL can continue to maintain the confidentiality of these documents.

4. Affiant says nothing further.
