In re: Nuclear cost recovery clause.

DOCKET NO. 140009-EI
ORDER NO. PSC-14-0348-CFO-EI
ISSUED: July 9, 2014

ORDER GRANTING FLORIDA POWER & LIGHT COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION
(DOCUMENT NO. 03295-14, X-REF DOCUMENT NO. 02781-14)

On June 25, 2014, pursuant to Section 366.093, Florida Statutes (F.S.), and Rule 25-22.006, Florida Administrative Code (F.A.C.), Florida Power & Light Company (FPL) filed a request for confidential classification of information (Request) included in the workpapers prepared by the Florida Public Service Commission (Commission) staff pursuant to Audit Control No. 14-007-4-1 (Audit), titled "Review of Florida Power & Light Company's Project Management Internal Controls for Nuclear Plant Uprate and Construction Projects." This Request was filed in Docket No. 140009-EI.

Request for Confidential Classification

FPL contends that the information provided in its filing on June 25, 2014, Document No. 03295-14, x-ref Document No. 02781-14, as more specifically described in Exhibit C attached to FPL's Request, constitutes proprietary confidential business information entitled to protection under Section 366.093, F.S., and Rule 25-22.006, F.A.C. FPL asserts that this information is intended to be and is treated by FPL as private and has not been publicly disclosed.

FPL further asserts that certain documents contain information related to reports of internal auditors. FPL also asserts that other documents contain information related to bids or contractual data, such as pricing or other terms, the public disclosure of which would violate nondisclosure provisions of FPL's contracts with certain vendors and impair FPL's ability to contract for goods or services on favorable terms in the future. Furthermore, this information also includes competitively sensitive information which, if disclosed, could impair the competitive business of the provider of the information. FPL contends that a few documents include competitively sensitive information related to certain employees' compensation which, if disclosed, would enable competing employers to meet or beat the compensation currently offered by FPL, resulting in the loss of talented employees, or conversely, the need to increase the level of compensation already paid in order to retain these employees and attract new talent. Lastly, FPL contends that certain information also contains confidential employee information unrelated to compensation, duties, qualifications, or responsibilities, such as employee cellular phone numbers.

Ruling

Section 366.093(1), F.S., provides that records the Commission has found to contain proprietary business information shall be kept confidential and exempt from Chapter 119, F.S. Section 366.093(3), F.S., defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), F.S., provides that proprietary confidential business information includes, but is not limited to:

- (b) Internal auditing controls and reports of internal auditors.
- (d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.
- (e) Information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information.
- (f) Employee personnel information unrelated to compensation, duties, qualifications, or responsibilities.

Upon review, it appears the above-referenced information satisfies the criteria set forth in Section 366.093(3), F.S., for classification as proprietary confidential business information. The information appears to be information concerning bids or other contractual data, the disclosure of which would impair the efforts of FPL or its affiliates to contract for goods or services on favorable terms, and information relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information. The information also appears to contain information related to reports of internal auditors. Furthermore, the information appears to contain employee personnel information unrelated to compensation, duties, qualifications, or responsibilities; thus, the information identified in Document No. 03295-14, x-ref Document No. 02781-14, shall be granted confidential classification.

Pursuant to Section 366.093(4), F.S., the information for which confidential classification is granted herein shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. At the conclusion of the 18-month period, the confidential information will no longer be exempt from Section 119.07(1), F.S., unless FPL or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

Based on the foregoing, it is hereby

ORDERED by Commissioner Julie I. Brown, as Prehearing Officer, that Florida Power & Light Company's Request for Confidential Classification of Document No. 03295-14, x-ref Document No. 02781-14, is granted. It is further

ORDERED that the information in Document No. 03295-14, x-ref Document No. 02781-14, for which confidential classification has been granted shall remain protected from disclosure for a period of up to 18 months from the date of issuance of this Order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Julie I. Brown, as Prehearing Officer, this 9th day of July, 2014.
