Subject: Request to make oral modification to Items # 21 and #22 on the November 25, 2014 Agenda Conference, Docket Nos. 140120-WU and 140121-WU

After filing the above recommendations, it was discovered that certain clarifications are needed for both dockets regarding payment of Regulatory Assessment Fees. The modifications do not affect the staff's overall recommendation and the modifications are highlighted below:

Item # 21, Docket No. 140120-WU

Page 3 under the recommendation header – Yes. The transfer of the water system and Certificate No. 339-W is in the public interest and should be approved effective the date of the Commission vote. The resultant order should serve as the buyer’s certificate and should be retained by the buyer. The Utility’s existing rates and charges should remain in effect until a change is authorized by the Commission in a subsequent proceeding. The tariff pages reflecting the transfer should be effective on or after the stamped approval date on the tariff sheets, pursuant to Rule 25-30.475(1), Florida Administrative Code (F.A.C.). **The seller should be responsible for all Regulatory Assessment Fees (RAFs) payable up through the date of closing.** The buyer should be responsible for filing the 2014 Annual Report, **paying 2014 Regulatory Assessment Fees (RAFs), and should be responsible for filing** all future annual reports, and RAFs **subsequent to the date of closing.**

Page 3 under the staff analysis header - On June 5, 2014, Brendenwood Waterworks, Inc. filed an application for the transfer of Certificate No. 339-W from Brendenwood Utilities, LLC in Lake County. The application is in compliance with Section 367.071, F.S., and Commission rules concerning applications for transfer of certificates. The closing occurred on May **1423**, 2014, contingent upon Commission approval, pursuant to Section 367.071(1), F.S.

Page 5 under the Regulatory Assessment Fees and Annual Reports header – Staff has verified that the Utility is current on the filing of annual reports and RAFs through December 31, 2013. **The seller will be responsible for all RAFs payable up through the date of closing.** The buyer will be responsible for filing the Utility's annual reports **for 2014 and all future years,** and paying RAFs **for 2014 and all future years subsequent to the date of closing.**

Page 5 under the conclusion header – Based on the foregoing, staff recommends that the transfer of the water system and Certificate No. 339-W is in the public interest and should be approved effective the date of the Commission vote. The resultant order should serve as the buyer’s certificate and should be retained by the buyer. The buyer’s existing rates and charges should remain in effect until a change is authorized by the Commission in a subsequent proceeding.
