I can't believe the PSC has sided with the fossil fuel industry. Is it really ok for you folks to turn down the ability to create free energy (solar) in preference of the fossil investors.? Does the money you receive from the fossil groups trump your caring for the citizens of Florida.? Shame on you for your despicable vote in November which impedes the ability to lower the carbon footprint for the future. Enjoy your political shananagins . Think of what you are doing. Do the right thing!
