It would great if the comments could be placed in the consumer correspondence instead. Thank you for your help.

**Thank you for the confirmation, Leslie. With that being said, would you prefer that their comments be placed in consumer correspondence instead, or is correspondence for parties and interested persons still okay?**

Dorothy,

At this time I have not received any request from SACE or Sierra Club to be listed at interested parties.

Thank you.

Leslie

Good morning, Leslie,

The attached document was e-filed for Docket 150049. Neither Sierra Club nor SACE are parties of record or interested persons in this docket. We will be placing the document in correspondence for parties and interested persons, however, since it is addressed to Chairman Graham, and Commissioners Brisé, Edgar, Brown, and Patronis, I wanted to give you the heads-up that it was there. If either of these entities should be placed in the parties list as interested persons, please provide contact information for same (it isn't included on the attached correspondence). Give me a call if you have any questions.

Dorothy
