business & energy technologies

## **Key Employee Biographies**

### **Mark E. Healy, President**

Mark began his career in the telecom industry in 1983 and has held many different positions in technology management. He is a founder of Kuhl Group, Inc. and oversees corporate development, strategic planning. As a holder of multiple technical certifications with company suppliers, Mark has a keen interest in how the company deploys and maintains its technology infrastructure for customer service delivery.

### **Michael A. Torigian, COO, CIO**

As Chief Information Officer, Michael is the company's technology visionary. With almost 30 years in the industry, Michael has extensive experience in both data systems and telecommunications platforms. He uses this experience to provide the company with its roadmap for growth, customer service and retention. Michael possesses several high level technical certifications with Adtran, the leading maker of telco service delivery equipment in the US.

### **Robert G. Crippen, Director of Operations**

Robert's career in telecom spans almost three decades and he is involved in day to day operations of the complex and varied technologies the company uses to provide world class service to its customer base. Robert holds the designation of Master Technician with NEC America, a key company supplier and one of the world's oldest and largest manufacturers of large scale telecom platforms.

### **Gregory L. Coons, Director of IT Operations**

Gregory is responsible for maintaining the IT infrastructure of the company, including data center, back office and billing platform. As an accomplished network designer and engineer, Gregory participates in selection of various technology suppliers and software developers that together create the company's technology backbone. He also holds multiple Adtran certifications.

### **Troy D. Stanton, Director of Sales and Marketing**

A second generation telecom and technology sales veteran, Troy has honed his skills in the field and as a manager and aggressive driver of new customer acquisition and shaper of the company's image. Troy is responsible for overseeing the company's go to market strategy and ongoing sales and marketing efforts.
