Good Morning,

My name is Wiley Pratt and I am the operator for both of these systems. The issue that I was having with both of these systems was calcium buildup plugging the pipe and chlorine injectors, but over this past weekend I believe I was able to correct the problem by changing out the piping, injectors, and cleaning out the calcium.

If you have any other questions or issue feel free to email back or call (863) 534-0147.

Thanks
