

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

NOTICE OF REQUEST FOR COMMENTS ON PETITION FOR APPROVAL OF
IMPLEMENTATION OF 1+10 DIGIT DIALING FOR WALNUT HILL AND MOLINO,
FLORIDA EXCHANGES, BY FRONTIER COMMUNICATIONS OF THE SOUTH, LLC.

TO

FLORIDA TELECOM PROVIDERS

AND

ALL OTHER INTERESTED PERSONS

DOCKET NO. 150151-TL

ISSUED: August 5, 2015

NOTICE is hereby given that Frontier Communications of the South, LLC has filed a Petition with the Florida Public Service Commission proposing to implement 1+10 digit dialing in the Walnut Hill and Molino exchanges in Florida. Since historically, 1+10 digit dialing in Florida has been used to indicate long distance calls, 10-digit dialing in lieu of 1+10 digit dialing may be considered.

FPSC staff is seeking comments on the proposal of Frontier Communications of the South, LLC (Frontier) to implement 1+10 digit dialing, or in the alternative, possibly implement 10-digit dialing in the Walnut Hill and Molino exchanges in Florida. Staff is interested in knowing how these proposals may affect other Florida telecom companies and customers, if at all.

Frontier currently serves certain exchanges in northwest Florida, including the Molino exchange, which is in Escambia County, as well as the Walnut Hill exchange, which is just north of the Molino exchange. At present, both Pensacola, Florida and McCullough, Alabama are included in the local calling area for Frontier's customers in the Walnut Hill, Florida exchange. As such, customers in the Walnut Hill exchange utilize 7-digit dialing when making calls to both Pensacola and McCullough.

Because of growth in these areas, Frontier anticipates imminent problems with call routing in this area. Therefore, Frontier is asking to be allowed to implement mandatory 1+10-digit dialing for the Walnut Hill exchange for all local calls between area codes. This would require customers in Walnut Hill to dial 1+10 digits when making calls that are within their assigned local calling area but are not in their assigned area code. and Molino exchanges would not incur long distance charges when making calls within their assigned local calling area, even though the customer has dialed a 1+10-digit number. To view Frontier's complete filing, you can go to <http://www.floridapsc.com/library/FILINGS/15/03129-15/03129-15.pdf>.
