Re: Docket No. 150151-TL -- Petition for approval of implementation of 1+10-digit dialing for Walnut Hill and Molino, Florida exchanges, by Frontier Communications of the South, LLC.

Dear Ms. Stauffer:

On August 14, 2015, BellSouth Telecommunications, LLC d/b/a AT&T Florida ("AT&T") submitted comments in this proceeding in response to the Commission's notice issued August 5, 2015. Therein, AT&T asserted that Frontier's request to implement 1+10 digit dialing for the exchanges in question would be contrary to the Commission's findings in Order No. PSC-96-0558-FOF-TL and would likely result in customer confusion. AT&T further indicated that it was not impacted by Frontier's request.

Although Frontier has found that the implementation of 1+10 digit dialing in similar situations has not led to customer confusion in its other jurisdictions, having engaged in good-faith discussion with AT&T, Frontier hereby submits this letter to confirm its willingness to implement 10-digit dialing for the Walnut Hill and Molino exchanges, as opposed to 1+10 digit dialing as originally requested. Frontier would further ask that the Commission accept this letter as amending Frontier's May 26, 2015 Petition in this regard.

In addition, Frontier is authorized by counsel for AT&T to represent that AT&T does not oppose Frontier's request in this proceeding as amended to request 10-digit dialing be implemented. Notwithstanding Frontier's willingness to implement 10-digit dialing in this instance, it is explicitly understood that neither party binds itself to any position it may take nor is otherwise prejudiced in the future regarding similar issues in any proceeding in any state, including the State of Florida.

Ms. Carlotta Stauffer, Clerk
