

To: Florida Public Service Commission

We will not be able to attend the scheduled meeting of September 24, 2015 as we will still be up north at that time. We question why a meeting is held at that time of the year when so many residents typically have not arrived for the season. As for the Utility's requested rate we cannot at all agree. Any increase in a utility, a tax, or any product at more than double the current rate is practically unheard of. There is already an interim approval of a 17% increase, what's with this 100% plus request?

Respectfully submitted
