Subject: Utilities, Inc. of Sandalhaven Docket No. 150102-SU

I have recently sent letters to each of you regarding the requested 139% sewer rate increase for Sandalhaven, a small operation of Utilities, Inc., and quite possibly an attempt by the larger corporation to increase the value before selling Sandalhaven. No equity or fairness can be associated with this ridiculous request, and we, the victims, are dependent upon you to represent us in a conscientious manner. The utility company made an investment and overbuilt, so it is trying to recoup from current owners, a much smaller group than the company prepared to serve. Though current building starts show increased customers, and the company has no increased expenses, it has a future possibility of return on their investment, much better than what is happening to owners who lost so much value and to current residents who do not deserve being punished by this extreme increase.

Please carefully read the letter from other Hammocks residents and me and base your decision regarding the increase based on fairness in the amount of increase, if any.

I thank you for your service.
