PURPOSE AND EFFECT: To clarify and simplify the rules and delete unnecessary and redundant rule provisions, so that the rules are up to date and usable.

Docket No. 150187-PU

SUMMARY: The rules prescribe the procedures to be followed by municipal electric utilities and rural electric cooperatives in submitting documentation of rate schedules and contracts and agreements.

Rule 25-9.001, F.A.C. - Amendments clarify which rules apply to each type of utility by rule number. Remainder of the rule is deleted as obsolete and unnecessary;

Rule 25-9.002, F.A.C. - Amendments state that definitions are applicable to Rules 25-9.002 through 25-9.045, F.A.C., rather than a reference to these regulations;

Rule 25-9.050, F.A.C. - Amendments repeal this rule as it is obsolete due to amendments to Rule 25-9.001, F.A.C., identifying rules applicable to each type of utility;

Rule 25-9.05, F.A.C.1 - Amendments define the documentation to be submitted with the proposed change in rate structure, including rate schedules, and contracts and agreements;

Rule 25-9.052, F.A.C. - Amendments set forth instructions for the filing of documentation in support of a proposed rate structure:

Rule 25-9.053, F.A.C. - Amendments identify evaluation criteria for a proposed change in rate structure and describe role of staff and the Commission in the evaluation.

SUMMARY OF STATEMENT OF ESTIMATED REGULATORY COSTS AND LEGISLATIVE RATIFICATION: The Agency has determined that this will not have an adverse impact on small business or likely increase directly or indirectly regulatory costs in excess of \$200,000 in the aggregate within one year after the implementation of the rule. A SERC has been prepared by the Agency.

The SERC examined the factors required by Section 120.541(2), F.S., and concluded that the rule amendments will not have an adverse impact on economic growth, business competitiveness, or small business and that affected entities potentially may benefit from the recommended rule changes.

The Agency has determined that the proposed rule is not expected to require legislative ratification based on the statement of estimated regulatory costs or if no SERC is required, the information expressly relied upon and described herein: based upon the information contained in the SERC.

Any person who wishes to provide information regarding a statement of estimated regulatory costs, or provide a proposal for a lower cost regulatory alternative must do so in writing within 21 days of this notice.

All additional relevant information deemed necessary by the Commission shall be submitted in addition to the above request.
- (2) After review of the utility's proposed change in rate structure, staff will send written notification to the utility indicating: (a) administrative approval of the documentation or (b) how the proposed rate structure is inconsistent with the criteria listed in subsection (1) of this rule. Upon receipt of staff's notification of inconsistency, the utility shall file an alternative proposed rate structure addressing staff's concerns or file a statement that the utility disagrees with the staff determination of inconsistency and requesting the Commission to consider the proposed rate structure as filed. If the utility does not submit such supporting information the Commission shall evaluate the proposed change in rate structure on the basis of cost and operating data from one or more comparably situated public electric utilities which the Commission determines to be most similar to the filing utility. Data from the comparable utilities shall be considered in conjunction with all submitted information which is specific to the filing utility.
  - (3) If the Commission finds the proposed rate structure inconsistent with subsection (1), the Commission shall

direct the utility to file a rate structure that is consistent with the criteria in subsection (1) of this rule.
