I think they both should be separate dockets. GCL would be OPR, but I am not sure what the proper OCR division should be – it looks like maybe whichever division monitors storm hardening requirements. I guess the Prog Mod would be B, 7, b.

I believe these will go to Samantha's section, so I think she should make the call.

Subject: 160000-OT - DNs 01028-16 and 01029-16
Importance: High

Hi Jennifer,

CLK received the two filings mentioned below late in the day on Thursday. Can you please confirm whether new dockets are to be opened for each one; or whether they should be placed in undocketed matters in anticipation of one "main" docket being opened at a later time, and moving these petitions to that new docket at that time?

If they are to be entered as new dockets, now, GCL would be the OPR, but we will need the OCR division designations (not the staff names at this point).

We would also need to know what Prog Mod(s) to use.

DN 01028-16:

Florida Municipal Electric Association, Inc. [FMEA] (O'Hagan) - Petition [for variance from or waiver of the annual reporting requirements in Rule 25-6.0343, FAC, pursuant to Rule 28-104.002, and Section 120.542, FS (2015)].

DN 01029-16:

Florida Electric Cooperatives Association, Inc. [FECA] (Hershel) - Petition for a variance from or waiver of the annual reporting requirements in Rule 25-6.0343, FAC, for municipal electric utilities and rural electric cooperatives.

Thank you for your help!

Dorothy
