companies, and such records necessary to ensure that a utility's ratepayers do not subsidize nonutility activities. (Emphasis added)

As stated previously, the information requested is of a personal individual basis, and not of a company and/or business. The disclosure of personal individual financial information would have a chilling effect on future potential acquisitions of troubled water and wastewater utilities in the State of Florida by competent, experienced persons with the technical and financial wherewithal to provide continued quality of service the customers expect and are deserving thereof.

Section 367.156, Florida Statutes, authorizes the Commission to keep confidential and exempt from Section 119.07(1), Florida Statutes, "proprietary confidential business information. Wherefore, North Charlotte respectfully requests that the required personal financial statements of its individual owners be granted confidential classification and treated accordingly.
