Good morning Mr. Farrow,

We will be placing your comments below in consumer correspondence in Docket No. 160021-EI and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Angela M. Charles
Commission Deputy Clerk
Florida Public Service Commission

Dear Sirs:

How can you say you are “doing the people’s business with an impartial and unbiased conclusion when ALL of the requested rate increases have been passed with no exception-You all may well go work for FPL as you have been their benefactor. They bare guaranteed a certain rate of return and they legally are not entitled to more under the rules of the legislature-Nothing this company has done has been above board Including their lying about me ordering a Smart meter and trying to deliver it under the conditions of absolute fraud- furthermore your organization has never had these meters tested for a term certain to determine if their were any “side effects” of their radio waves

As such this Commission has utterly failed to serve the public and should not be called “The Public service commission”

M. Farrow
