Re: Florida Public Service Commission Docket No.: 160049-EU
Petition for modification of territorial order based on changed legal circumstances emanating from Article VIII, Section 2(c) of the Florida Constitution, by the Town of Indian River Shores

Mr. Kelly,

I've done a lot of research on electric rates, and I see your name often whenever Florida Power & Light or Duke Energy propose a change in rates. In fact, you've stepped up in the past when my neighbors who are served by FPL have faced rate increases.

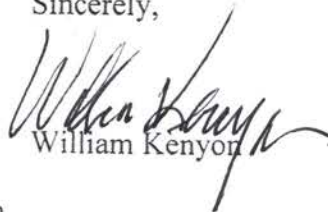

You may not be aware, but my community faces a huge electric rate dilemma. I live in the Town of Indian River Shores, and while some of my neighbors are served by FPL, I unfortunately am served by the City of Vero Beach's utility.

My rates are thirty percent higher than my neighbors who get their electricity from FPL. You heard that right: 30 percent! And yet our service is nowhere near as good.

You've done so much to help my neighbors, and I'm sure the work you've done has played a role in keeping FPL's rates down. I'm hoping that you can help us as well. Your website says that you "advocate on behalf of Florida's utility consumers." We need your advocacy now more than ever.

Because I live in Indian River Shores, rather than Vero Beach, I have nowhere else to turn. I can't vote their City Council out of office. Please say that you will help our Town.

Sincerely,

William Kenyon
