Re: Notice of Discontinuance of Service and Withdrawal from Florida Market

Dear Ms. Stauffer:

Aero Communications, LLC ("Aero") has used its license to provide local and/or interexchange services primarily to provide secure data and voice services to banks and other financial institutions. Aero collocated its equipment in incumbent local exchange carrier central offices and purchased unbundled network elements for its services. At this time, it is no longer economically viable for Aero to continue its operations in this manner. Instead, the banks are purchasing similar underlying broadband transport and voice services from other carriers. The transition away from Aero's services has concluded and Aero no longer serves any banks in the state. Aero has ceased providing services in the state of Florida.

Pursuant to Chapter 364.335(3) of the Florida Statutes, Aero wishes to terminate its authority as a telecommunications provider in the State of Florida. Authority was granted on December 16, 2005 in Docket 05-0593 with the assigned company code of TX858. Aero has no customers in Florida so there will be no impact on customers. Aero will submit its annual report for 2015 and it will be its final report. Aero will pay the required assessment. There are no outstanding liens against its operating authority or any fines owed to the commission.

Please contact me if additional information is required or if there are any questions.

Respectfully submitted,
