Subject: Vero Electrical Problems

To: Public Service Commission
From: William G. Curran Jr.

I am sure all of the members of the Commission are aware of our country's history "Taxation without Representation" is Tyranny. Without firing a shot you can correct a situation such as this that exists in our Town.

Our Town is currently divided so that some of it is supplied by Florida Power and Light for electrical service. The balance is served by Vero Beach. There is a wide difference in the rate charged.

FPL has stated it is "ready, willing and able" to supply the entire Town. Comments have been made that Vero Beach supplements it's tax bill with revenue from the electricity.

Certainly none of you would like to hear your money was being used in such a manor.

Obviously I am a resident of Indian River Shores and would be very interested in your help in correcting the wrong doing described above, in your upcoming decision on a territorial modification Docket #160049

Thank You,

William G. Curran Jr.
