Subject: RE: Docket #160021

Mr. Lipsman:

Thank you. The Public Service Commission will hold service hearings in June, and Commissioners will be at all hearings in the various locations within FPL's territory to hear from customers. Hearing locations will be on the PSC's website soon, and I hope you will attend one in your area.

The evidentiary hearing will be in Tallahassee, and consumers will be represented by J.R. Kelly, Florida's Public Counsel, who will be at the hearing and whose staff will be cross-examining witnesses. His contact number is: 850-488-9330.

Please contact me if you need any additional information.

Thank you,

Bev DeMello

Dear Ms. DeMello:

Thanks for your reply. I'd like to point out that holding hearings in Tallahassee isn't very convenient for most people who might want to address the PSC. I'm in Vero Beach, which is an eleven-hour round trip and would necessitate staying overnight for the opportunity to speak for a couple of minutes. It would be preferable, for matters of this importance, to hold hearings in locations around the state, such as Tampa, Miami, West Palm, Jacksonville, and Pensacola--not necessarily all cities for every hearing but at least one or two, so attendees aren't limited to those who can take a weekday to travel to Tallahassee. This is just another way the deck is stacked in favor of the powers that be and their paid lawyers and lobbyists.

Subject: re: Docket #160021

Dear Mr. Lipsman:

Thank you for contacting the Florida Public Service Commission (PSC) about Florida Power & Light Company's (FPL) rate petition. To give Commissioners and staff an opportunity to review your concerns, your email is included in the file for Docket No. 160021-EI.

PSC customer service hearings are scheduled in FPL's service territory for Commissioners to hear directly from customers about the utility's rate request and service. All customer comments during the hearings and all correspondence will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on FPL's proposed rates.

The PSC's evidentiary hearing on FPL's rate case will be in Tallahassee. Witnesses from the utility, intervenors, Commission staff, and the Office of Public Counsel will present testimony and exhibits and be cross-examined by the Commissioners and other parties. Commissioners will examine FPL's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for FPL to deliver quality electric service to your home or business. Any proposed rate adjustment is requested to begin in January 2017.

If you have additional questions or need further assistance, please call 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com, and click on the Clerk's Office tab, then hit Dockets and type in case number 160021.

Sincerely,

Bev DeMello

Comments:

Why is FPL seeking a rate increase to build a new plant in Okeechobee when they're doing everything they can to oppose solar power in Florida? Just Google "fpl opposes solar" for an idea of what they're up to--more cynical corporate maneuvering to advantage themselves while ratepayers pick up the tab. I'm not interested in paying higher rates to fuel their expansionist ambitions. If they invested more in conservation and renewable energy like solar, they wouldn't need the rate increase. Even Georgia has more solar capacity at this point than Florida, according to an article in the Tampa Bay Times: <http://www.tampabay.com/news/business/energy/florida-utilities-say-solar-doesnt-work-in-the-sunshine-state-but-it-sure/2215830>
