Subject: Proposed FPL rate hike

Re: docket # 160021-EI

I am a current FPL residential AND business customer. I think while FPL has provided excellent service, I don't see the need to increase their revenues by such an exorbitant amount.

I do concur that some rate hike is inevitable. We have very low rates and a high quality of service, and I would like to see more investment in renewable energy sources (solar is part of the FPL proposal). However, I don't want my money going to new sources of natural gas or any expansion in our dependence on fossil fuels. That needs to come off the table.

C. Karen Stopford
