Good morning Ms. Mesa,

We will be placing your comments below in consumer correspondence in Docket No. 160021-E1 and forwarding your comments to the Office of Consumer Assistance and Outreach.

Sincerely,

Sandra Soto  
Commission Deputy Clerk I  
Florida Public Service Commission

To Whom It May Concern:

FPL's request to a NO INCREASE PLEASE:

1. \$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

This is a complex request that would require you – the consumer – to pay monthly increases to the only power provider available to you. FPL's request equals a 23 percent base rate increase for all residential ratepayers (this is a charge increase even before you flip on a switch,) and would allow an unprecedented return on equity (shareholder profit) of 11.5 to 12.5 percent. Please no Increase on my residential FPL bill, I am a hard worker head of household making ends meet and this will be very difficult for me and this is very unfair to us.

*They're asking for money to resolve – to get more profit for people that are out – for their shareholders that are out of state. Now we have seniors that cannot afford to buy their medication, and now with this rate increase and everything else, as everyone has spoken*

*about, that will – it's not only a 23 percent, everything that comes with it that they're going to have to pay for, they may have to – they may have to serve – they may have to not eat to be able to pay for their bills*
