Ms. Carlotta Stauffer

We have no option of investing in any other power company, which falls under the guise of a monopoly. This request equals a 23 percent base rate increase for all residential ratepayers to provide an unprecedented ROI.

An increase is one thing, but this excessive increase is immoral . This excessive increase would be provided from many hard working residents, many who are seniors and financially struggle.

According to the filing with the PSC, FPL is on target to make \$1.6 billion in profit WITHOUT the requested rate increase.

I implore you to help residents who are living week to week to keep their hard-earned wages.

Denise A. Pancyrz
