Re: docket number 160021-E1

According to FPL's own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

\$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.

Therefore, I refute Florida Power & Light's (FPL) request for a \$1.34 billion increase in base rates. Please, as Public Service Commission (PSC), do the same and refute this increase.

Cordially,

Thomas Kennedy
