Subject: FPL rate increase

*Ian Ramcharitar.
2905 s/e Pier street.
Port St Lucie. Fl. 34984.*

I am the home owner at this address and I`m AGAINST FPL request for a rate hike.

Presently I`m retired and existing on Social Security Disability. I`m sure any reasonably informed person(s) with a knowledge of what Social Security would pay out to a former Utility worker , himself and who had to retire prematurely on failed kidneys. Who still had to maintain a relatively young family and still manage my medications, dialysis and countless other obstacles in trying to stay alive and continue to remain as best as can and still try be

reasonably "healthy". I would be severely challenged if I had any kind of impact to my present financial situation.

As someone with greater knowledge of the planned Rate hike and the direction it is actually going,if successful,alluded to me. I thank that person for bringing these latest developments at FPL to me.

Below I quote this person Miguel Soliman.

I would allow my response to be used for the same reason ONLY.

FPL customer.Port St Lucie.*

" - Miguel Soliman, Miami FPL Customer

"They're asking for money to resolve – to get more profit for people that are out – for their shareholders that are out of state. Now we have seniors that cannot afford to buy their medication, and now with this rate increase and everything else, as everyone has spoken about, that will – it's not only a 23 percent, everything that comes with it that they're going to have to pay for, they may have to – they may have to serve – they may have to not eat to be able to pay for their bills." – Miguel Soliman, Miami FPL Customer. "
