Subject: F.P.L, Rate Hike

I implore you not to allow F.P.L. to raise its' rates just to make more money. We can't afford it as it is. Last year they boasted how they did so well with their management of power they lowered our rates. The only reason they want this is to put money in the pockets of the shareholders, they will not use it for any project or use in providing power. Elderly people and those on SSI and SSDI cannot afford this neither can minimum wage worker's. How are people supposed to feed their families? If the shareholders want more money they have to invest in something else instead of stealing it from the backs of the poor.
