Subject: Docket #160021-E1

Dear Ms. Stauffer,

As a customer of The Florida Power and Light utility, I am opposed to the excessive rate hike the FPL has recently requested of the PSC.

The hike would do very little to maintain or enhance the quality of services the utility provides. The largest chunk of this rate hike will go directly into the pockets of FPL share holders. I do not begrudge investors earning a reasonable return on their capital, but this hike is extremely unreasonable. Moreover, the utility and it's investors are already flourishing! To demand more from their customers smacks of greed to me. It is quite unfair treatment of so many people who are already working hard to make their budgets work.

Thank you for considering my input.
