Re:docket number 160021-E1

Dear Ms. Stauffer,

I am writing this letter to express my concern about the proposed FPL rate hike. Why do we want to give FPL more money when they are profitable and on course to make over 1.5 billion dollars in 2017, without the increase!

This will come on the backs of Florida citizens who don't know how much will go to executive pay, political contributions and shareholders who don't even live here. These times are difficult enough without this added burden on citizens who don't even have another option.

It would be in the best interests of all those who are not wealthy, of which there are many in Florida, to leave the rates as they are. Let FPL think about how they could improve life for the citizens of Florida without asking us to pay more.

Respectfully,
Maria Zywica
