Subject: Docket # 160021-E1 - FPL Rate Increase Request

1. \$960 million of FPL's rate increase will go into FPL investors' pockets. None of those funds will go to service enhancements, disaster preparedness, or energy innovation.
2. According to their own filing with the PSC, FPL is on target to make \$1.6B in profit in 2017 without the requested rate increase.

I am a capitalist and have no problem with any company making a profit. However, to request a major increase without it benefitting the customer is, at best, a sick joke. I think they can find a dividend increase somewhere in the \$1.6 BILLION profit!

We have no option of investing in any other power company, we have no say in how many millions of dollars they pay their executives, and we have no accurate accounting for the full scale of political contributions they make each year to influence those in powers to keep FPL in its unchallenged, powerful position in this state.

We have seniors that cannot afford to buy their medication, and many under-employed people in Florida. This 23% rate increase would undoubtedly affect their ability to eat AND pay their bills."

When you're considering this rate increase in order to generate higher profits for FP&L, please keep in mind that those profits come at the expense of those the PUBLIC SERVICE commission is supposed to represent.
