Subject: FPL request for a rate increase

August 8, 2016

I am writing to express strong opposition to FPL's request for a rate increase that will add to the cost of living for the large number of senior residents of Florida on limited, fixed incomes such as myself. My belief is that there is no legitimate, justifiable reason for this proposed increase. It appears to be another example of a company putting the financial interests of primarily wealthy investors over the interests of the less affluent public, even though the average consumer is struggling to make ends meet and not go without what most people consider to be essentials. Justification for such an increase seems to be lacking.

In summary, please do not allow this increase in FPL rates to occur, since it is bound to cause some increase in anxiety and actually harm a large number of Florida residents. It is just unfair, plain and simple!
