Re docket number 160021-E1

Please deny this rate increase. It is not necessary and detrimental to retired persons like myself.

FPL wastes too much money that can be used for good, one example; I see FPL wasting money like the present project of burying high tension lines from the St Lucie power plant - a plant that has so many cooling tube failures that have been bypassed, and so many more failing at such a rapid rate, it will probably be decommissioned not long after this wasteful project is done. The overhead lines have been working fine for about 50 years now.

You are supposed to serve the people, not the corporations. Deny the out of state stockholders increased profits and serve the people of the state of Florida.

Thank you.

Bob
