Subject: docket number 160021-E1

To the Public Service Commission,

I object to the Commission granting the request rate increase from Florida Power and Light for the following reasons:

We have no option of investing in any other power company, we have no say in how many millions of dollars they pay their C-Suite executives, and we have no accurate accounting for the full scale of political contributions they make each year to influence those in powers to keep FPL in its unchallenged, powerful position in this state

When you're considering this rate increase in order to generate higher profits for FP&L, please keep in mind that those profits come at our expense, and that includes the senior community, many of whom are having a very hard time of it.

Thank you,

Walter
