Docket number 160021-E1

Dear Ms. Stauffer,

I would like to register my objection to the FPL proposed rate hike. I understand that this raise hike equals a 23% rate hike without any benefit to consumers. It is incredible for me to believe that \$960 million of this raise will go to FPL shareholders and will provide them with at least a 11.5% return on equity. Outrageous to people like me. I am 72 years old and my wife has Stage IV breast cancer. Who needs the money more, the shareholders or people like me? If a corporation legitimately needs to raise money to cover expenses, that is acceptable. I understand that FPL stands to realize a profit in 2017 of 1.6 billion dollars. Isn't that enough! When will a time come when greed is replaced by compassion? Sadly the answer, I believe, is never. FPL is always sending emails saying what a wonderful and caring corporation they are.

Their goodwill, which I always felt, is meaningless.

Thank you,
Harvey Brodsky
