Dear Ms Carlotta Stauffer,

I'm against this rate increase and the millions of dollars that will be going into investors pockets that are not even in our beautiful state. Really !! FPL will still continue to make more profit with all the new residents which continue to move into our area. A 23% increase to my bill I can't take! My Social Security check doesn't go up yearly in anyway to keep up

with all the taxes,fees etc that are put on all of us retired folk and the poor hard working class people.

I personally don't eat out,buy my clothes now at thrift stores,I sweat to keep my FPL bill down as low as possible,cut back on food to pay for medication etc. All these big Corporations keep putting these increases on our backs and it has to stop and be used a better way that will help Florida residents specifically.

I love FPL employees, they are some of the finest people I have ever had to deal with. They work very hard and are always there. This rate hike should go to improving disaster help and energy innovation and help for those who can't pay their bills etc not in big investors pocket!!

Please reject this rate hike.

Respectfully thank you for your time

Lydia Jackson
