Subject: FPL Rate Increase - Docket No. 160021-EI

Dear Mr. Brodsky:

Thank you for contacting the Florida Public Service Commission (PSC) about Florida Power & Light Company's (FPL) rate petition. To give Commissioners and staff an opportunity to review your comments, your correspondence is included in the file for Docket No.160021-EI.

As you know, the PSC customer service hearings were held in June in FPL's service territory for Commissioners to hear directly from customers about the utility's rate request and service. All customer comments during the hearings and all correspondence will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on FPL's proposed rates.

The PSC's evidentiary hearing on FPL's rate case will be in August in Tallahassee. Witnesses from the utility, intervenors, Commission staff, and the Public Counsel, who represents customers, will present testimony and exhibits and be cross-examined by the Commissioners and other parties. Commissioners will examine FPL's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for FPL to deliver quality electric service to your home or business. Any proposed rate adjustment is requested to begin in January 2017.

If you have additional questions or need further assistance, please call 1-800-342-3552. If you want updated case information, visit the PSC's website, www.floridapsc.com and click on the Clerk's Office tab, then hit Dockets and type in case number 160021.

Sincerely,

Bev DeMello

Docket number 160021-E1

Dear Ms. Stauffer,

I would like to register my objection to the FPL proposed rate hike. I understand that this raise hike equals a 23% rate hike without any benefit to consumers. It is incredible for me to believe that \$960 million of this raise will go to FPL shareholders and will provide them with at least a 11.5% return on equity. Outrageous to people like me. I am 72 years old and my wife has Stage IV breast cancer. Who needs the money more, the shareholders or people like me? If a corporation legitimately needs to raise money to cover expenses, that is acceptable. I understand that FPL stands to realize a profit in 2017 of 1.6 billion dollars. Isn't that enough! When will a time come when greed is replaced by compassion? Sadly the answer, I believe, is never. FPL is always sending emails saying what a wonderful and caring corporation they are. Their goodwill, which I always felt, is meaningless.

Thank you,
Harvey Brodsky
