**Subject:** FPL Rate Increase - Docket No. 160021-EI

Dear Mr. Day:

Thank you for contacting the Florida Public Service Commission (PSC) about Florida Power & Light Company's (FPL) rate petition. To give Commissioners and staff an opportunity to review your comments, your correspondence is included in the file for Docket No.160021-EI.

As you know, the PSC customer service hearings were held in June in FPL's service territory for Commissioners to hear directly from customers about the utility's rate request and service. All customer comments during the hearings and all correspondence will be reviewed and considered when PSC staff prepares its recommendation to the Commissioners on FPL's proposed rates.

The PSC's evidentiary hearing on FPL's rate case will be in August in Tallahassee. Witnesses from the utility, intervenors, Commission staff, and the Public Counsel, who represents customers, will present testimony and exhibits and be cross-examined by the Commissioners and other parties. Commissioners will examine FPL's need for a rate increase, its existing and proposed rate structure, and its ability to provide safe and reliable service.

Commissioners are charged with making sure that Florida's utility companies fulfill their service obligation. The PSC will ensure that final customer rates reflect only those costs that are prudent and necessary for FPL to deliver quality electric service to your home or business. Any proposed rate adjustment is requested to begin in January 2017.

If you have additional questions or need further assistance, please call 1-800-342-3552. If you want updated case information, visit the PSC's website, [www.floridapsc.com](http://www.floridapsc.com) and click on the Clerk's Office tab, then hit Dockets and type in case number 160021.

Sincerely,

Bev DeMello

**Subject:** SAY NO THE FPL RATE INCREASE!

Dear Commissioners

Please put a stop to the money grab by large utilities using this rate hike in Florida. There can be no question that FPL is not in need of a rate increase. What possible justification is there for this ill timed and risky request? They have bumper profits and a monopoly on power production. (And they want more?) Who do you represent any way? Who do you work for? Florida citizens do not want or need this exorbitant new tax as a gift to the utilities.

FPL and other utilities stand squally in the way of solar power in the sunshine state and they want more?

If they want to increase their revenues simply get into the solar business by leasing and installing systems to large commercial end users. They don't need to damage the Florida economy just as we are in the midst of a slow weak recovery. It makes no sense to kill the goose that lays the golden egg. Why damage business with increase costs? Our PSC should lead us into the future not take us backwards with this rate increase. I am a retired voter and I vote every time. We are watching. We will remember in November!
