Subject: FPL RATE HIKE

Please give us a break...the cost of everything is going up, not FPL costs too!! Please spare the people in the FPL area....we have so much outlay and income stays the same....I speak for other Seniors too, who are having a hard time making it. An increase in our electric bills, and other things that are affected by FPL would hurt deeply everyone in south Florida. This is a company that provides necessities and pleasures for so many of us, we must have it....it would be taking advantage of every person who can't afford any more raises, especially when they don't receive any perks back for the raise. It just goes into the pockets of executives and shareholders who have interests in the company. Those of us on social security have not seen a raise in income for a long time, we cannot afford such a self serving hike in payments. Please rethink your decision.
