Dear Ms. Draper:

Duke Energy Florida is submitting, for administrative review and approval, a full set of tariff sheets for rates approved by the Commission, on 11/01/2016, in Docket No. 160178. Eleven of the sheets, which are listed below, reflect revisions to, and supersede, those submitted on 10/19/2016 in the referenced docket. The revisions reflect Staff's recommendation regarding the revised revenue requirement underlying the approved rates. As a reminder, these rates will be effective with the first billing cycle of February 2017.

Attached you will find the following four PDF files: (1) (GBRA_20117_Mark-up), which shows the full set of tariff sheets in legislative format; (2) (GBRA_2017_Final), which provides clean versions of the tariff sheets; (3) (Exhibit D-STAFF-Revised...), which shows the calculation of the uniform percent change in the E-12 format; and (4) (Exhibit E-STAFF Revised...) which provides the detail of all the rate changes.

Feel free to contact me at (727) 820-4414 if you have any questions or need additional information. Approved tariff sheets may be returned to Javier Portuondo at 299 1st Avenue North, Mailcode FL-132, St. Petersburg, FL 33701. Thank you for your time and attention to this matter.

An initial Fixed Curtailable Demand of at least 2,000 kW shall be specified in the contract, which may be re-established under the following conditions:
 - (a) If a change in the customer's power requirements occurs, the Company and the customer may establish a new Fixed Curtailable Demand.
 - (b) If the customer fails to reduce load by the Fixed Curtailable Demand for the duration of any period of requested curtailment, the lowest measured load reduction achieved during such period shall become the Fixed Curtailable Demand effective with the next billing period following the period of requested curtailment. In addition, Special Provision No. 5 is applicable.
 - (c) If the customer establishes a demand reduction larger than the Fixed Curtailable Demand for the duration of each period of requested curtailment occurring within a billing period, upon request by the customer, the lowest of the demand reductions achieved during each such period shall become the Fixed Curtailable Demand effective with the next billing period.
3. As an essential requirement for receiving the Curtailable Demand Credit provided under this rate schedule, a customer shall be strictly responsible for the curtailment of its load by at least the Fixed Curtailable Demand upon each curtailment request from the Company. Such requests will be made during those periods specified under Limitation of Service above.
