Please don't let our power rates increase. We can't afford to live.

As a senior citizen on fixed income, our retirement checks only received a \$4.00 cost of living for 2017, even though it actually costs hundreds more a month to actually eat and get medical.

Our 1500 sq ft home already costs us some months over \$300 a month for power! Never is it under \$200! For two senior citizens who keep thermostat at 76 in summer and 65 in winter!

It's getting ridiculous to give their shareholders more importance than seniors deciding to eat Top Ramen to be able to afford power.

Respectfully,

Arthur and Linda Higbee
