Regarding Docket # 160186-EI

Gulf Power's request for base rate increase filed October 12, 2016.  
New EPA guidelines will invalidate this request for rate hike.

Filed October 12, 2016 under the past Federal Administration with current EPA guidelines to reduce carbon emissions in place. Those regulations will be repealed. Due to this change. I move that the current rate review filing is no longer valid and implore that it be tabled. **The current reasons no longer exist and it makes the request null and void for Gulf Power to quantify, document and validate their reasons and need. To continue to push for this increase under these new circumstances is no longer valid. Cancel Docket 160186-EI.**

Joan Carnley  
Gulf Power Customer.
