CONSUMER COMMENTS
This letter is being sent to voice our opposition to any rate
increase proposed by Utilities, Inc. This company did not
improve our water quality or attempt to improve our water
quality as promised after the last increase. Our water
continues to be unusable nor is it drinkable without
expensive filtering systems. The water also causes deep iron
stains on laundry and outside surfaces including siding and
concrete. In addition, the requested increase is outrageously
high and will not benefit our 55+ community in any way. Our
residents should not be required to pay exorbitant fees to
improve water quality in other counties.
