## STAFF'S FOURTH DATA REQUEST VIA EMAIL & US MAIL

**Re: Docket No.150083-EG Petition for approval of demand-side management plan of Duke Energy Florida, Inc.**

Dear Mr. Bernier:

Please provide a response to the following questions by March 16, 2017.

1. Please refer to Section 1.0 of the Program Standards. Please explain why it is necessary to redefine weatherization providers as Agencies.
  - a. Please refer to goal 1 of this section. Here, the Department of Economic Opportunity (DEO) and local Agencies are referred to separately, whereas in section 2.0, it states "The eligibility requirements for LIWAP will align with the participating Agency's criteria or requirements." Is DEO included in the term "Agency"? If so, would it be best to refer to DEO and local weatherization providers as "Agencies"?
2. Please refer to Section 2.1 of the Program Standards. Here it states, that Agencies may use DEF participating contractors. Can DEO use DEF's participating contractors?
  - a. Please refer to number 1 of this section. Please explain why Agencies need licenses.
3. Please refer to Section 2.2 of the Program Standards. Please explain why "Weatherization Installation Standards of the U.S. Department of Energy" was removed from the list of guidelines to be met.
4. Please refer to Section 5.1 of the Program Standards. Please explain why National Energy Audit Tool (NEAT) is not included as a part of the Participation Requirements.
5. Please refer to Section 7.1 of the Program Standards. Please explain why there is not an audit requirement as a part of the Participation Requirements.
