CONSUMER COMMENTS

As you can tell from the condition of this paper - I had thrown it in the waste basket after my spouse and son-in-law convinced me that the PSC is "in the pockets" of the high flying (literally) utilities. I am going to hold out hope that there are still people of integrity who will tell Gulf Power to tighten its own belt and not force these of us on fixed incomes to support their extravagance.

Their executive board of trips in their private jets to exotic locations. I should not have to support that.

FOLD & TAPE - See back for address
Any email or other correspondence sent to a Florida Public Service Commissioner, or any other public official and/or employee of the PSC, in the transaction of public business is considered a public record and is subject to Florida's Public Records Law. This means that Florida law generally requires the PSC to provide a copy of any such email or correspondence, upon request, for inspection and copying to any Florida citizen or to any member of the media.

Our single greatest expense monthly is the check to Gulf Power. We are 72 years old and existing with no heat and a.c. is not possible. So - as the town halls are saying to Congressmen - "Do your job!"
