Mr. Bob DuShaw
rdushaw@cfl.rr.com

Dear Mr. DuShaw,

The Governor's office forwarded a copy of your correspondence regarding Duke Energy to the Florida Public Service Commission (FPSC). You expressed concern about DEF's asset securitization charge.

In 2015, the Florida Legislature passed, and Governor Scott signed into law, Section 366.95, Florida Statute, authorizing the issuance of nuclear-asset recovery bonds. In July 2015, DEF filed its petition with the FPSC for approval to issue the bonds and to collect the nuclear-asset recovery charge on a per kWh basis from all customer rate classes over a period of 20 years. The nuclear asset recovery charge will be paid by all existing and future customers receiving transmission or distribution services from DEF. The funds DEF receives will allow it to recover its investment in the Crystal River III nuclear power plant regulatory asset.

In November 2015, the FPSC issued a nuclear-asset recovery bond financing order, authorizing DEF to issue the bonds to cover the Crystal River III nuclear plant retirement costs.

On June 16, 2016, the FPSC authorized the issuance of \$1.294 billion in nuclear asset-recovery bonds to cover the retirement costs of DEF's Crystal River III nuclear power plant.

Customers will now see an initial \$2.87 charge on a 1,000 kWh-per-month residential customer's bill compared to the traditional rate base method of recovery, which would have resulted in a charge of approximately \$5.00.

We will add your comments to the correspondence side of Docket No. 150171-EI regarding DEF's petition for issuance of nuclear asset-recovery financing order.

If you have any questions or concerns please contact Ms. Ellen Plendl 1-800-342-3552 or by fax at 1-800-511-0809.

Sincerely,

Randy Roland

May 8, 2017 To Gov. Scott FI

Subject : Duke Power want to bring up old purchase of Progress- Duke had choice not to buy the "damaged goods".

Gov. If you know what is good for you- you'll instruct the PSC to tell Duke to stop trying to get rate increases on old bad decisions. (future elections?)

As you probably have forgotten - I sent you and your PSC, notes that the Duke Power board of directors fired both the Presidents of Duke and Progress, for merging the loser - Progress, with damaged goods (Nuclear) .

With all the added natural gas plants - low cost, now in use by Duke Power, we should all see lower power bills-

Sincerely Bob DuShaw 2849 Highland View Circle, Clermont, FL 34711

Subject: Duke Energy Wants to raise it rates for Florida Send protests to PSC - Gov- your state rep. Orlando Sentinel Page A-10 May 5, 2017

A few years ago, The president of Progress Energy and the president of Duke, "cooked up a deal", to merger Progress Energy with Duke, with each of the President's, with the big titles. Progress was a disaster- A MESS , trying to build nuclear power plants, no doubt encourage by Florida Gov't powers as means to employ more people in a down trodden area. Plus with PSC's help, sticking advance rate increases to all our power bills. This was common knowledge to all – including the president of Duke . These two "birds" completed thier merger- When the Duke board of directors examines the "deal" they fired the "jerky presidents". Yes -fired them!!!!!! The Florida PSC and Gov. Scott know this is fact , since I jotted them both a personal letter !!! So the old bull crap- Duke "inherited " Progress Energy is false! Duke Management screw up- why give them a rate increase for some old mistakes of Progress Energy. In fact, our Florida PSC should be pushing for rate decreases . Switching many power plants from coal to natural gas has been a hugh savings for Duke Power. Where are our rate decreases?? Please come out swinging! Strong notes to Gov. Scott- PSC and your state rep!!!!. Anyone wonder why municipal bonds for design – initial construction instead of added advance fees to our power bills ?? Interesting AEP- selling off their merchant power plants- want only to service states that have PSC's !! Like it will be easy to "buy the PSC's"----- get rate increases anytime !!
